Instructions

Instructions for using eye care

- ① After applying eye cream or lotion, move the eyelid back and forth from the lower to the upper eyelid while drawing a circle.
- ② Move from the lower and upper eyelid to the temple area in a semicircle.

Whole face usage

- ① After washing your face, apply skin lotion, serum, etc., and then select your preferred mode.
- ② Move the massage head from the mouth and chin along the face line and lift the cheeks.

Note: If you can't feel the EMS, your skin may be dry. Be sure to apply gel or lotion before using.

Charging Method

1. When using for the first time after purchase or when not in use for a long time, please fully charge the main unit.
 2. Insert charging cable into the port. You can connect it to a USB port on a computer, power bank, or adapter, etc.
 3. Cannot be used while charging. Unplug the cable from the main unit when not charging.
- ※The main unit may become slightly warm during charging, but this is not a malfunction.
