

AOCHUAN (LINYTUO) Δωρεάν λουράκι λαιμού A1 (Μαύρο)

AOCHUAN · EAN 6972467719563

Machine translation from Polski. In case of doubt the manufacturer's original document prevails.

Neck Mount

Specification

Model Free AI

Material PC+ABS / silicone / iron

Weight 187 g (without strap)

Compatibility All action cameras and accessories with a two-point mount

Applicable body weight 40-130kg

Dimensions 287x228x41 mm

Neck circumference 677mm

Strap length 68-95cm

*The above data comes from laboratory tests. Depending on testing conditions, some deviations may occur; please refer to the actual properties of the product. This document is a translation of the original user manual created by the manufacturer. Detailed information about the distributor/manufacturer warranty conditions is available on the website

<https://serwis.innpro.pl/gwarancja>

The product should be regularly maintained (cleaned) at your own expense or by specialized service points at the user's cost and responsibility. In the absence of information about necessary periodic or service maintenance actions in the user manual, the physical condition of the product should be assessed regularly, at least once a week, against that of a physically new product. If any deviation is detected or identified, urgent maintenance (cleaning) or service steps should be taken. Failure to properly maintain (clean) and respond upon detection of a deviation may lead to permanent damage to the product. The warranty provider is not responsible for damages resulting from neglect.

Warnings and safety information

All information regarding the use of the product can be found in the user manual. Before you start using it, familiarize yourself with its content and follow the guidelines contained therein. Before use, also review the following information:

Usage warnings

Risk of device damage:

- Before use, ensure that the gimbal or stabilizer is compatible with the equipment being used, such as a camera or smartphone.
- Do not overload the device – only mount accessories and equipment that comply with the maximum load indicated in the user manual or specifications.
- Avoid exposing the device to shocks, falls, or contact with water unless the manufacturer declares it waterproof.

Child safety hazard:

- Gimbals and stabilizers are not intended for use by children.
- Store the product in a place inaccessible to children to avoid accidental activation of the device or damage to moving parts.
- Small parts, such as screws, mounts, or cables, may pose a choking hazard – keep them out of reach of children.

Risk of injury during operation:

- While operating, avoid touching the moving parts of the gimbal or stabilizer.

Risk of overheating:

- During intensive use, monitor the temperature of the device – if it overheats, turn it off and allow it to cool down before reusing.
- Never cover the device while in operation to ensure proper ventilation.

Wireless connectivity

Data protection:

- If the gimbal or stabilizer offers wireless connectivity, use only the manufacturer's app downloaded from trusted sources.
- Secure your device with a password and regularly update the software to avoid potential security threats.

Access management:

- Regularly check paired devices and remove those that should not have access to the stabilizer.
- Limit the ability to pair the device only to trusted users.

Information on proper usage

Configuration and mounting:

- Before mounting equipment on the gimbal or stabilizer, ensure that all components, such as adapters, mounts, and brackets, are properly secured.
- Balance the device according to the user manual to ensure smooth operation and avoid

overloading the motors.

Field operation:

- When using the gimbal in challenging conditions, such as rain, dust, or wind, use protective covers or avoid exposure to adverse environmental factors.
- Always ensure that the device's battery is adequately charged.

Storage and transport:

- Store the gimbal in a bag or protective case to prevent mechanical damage and dirt.
- During transport, ensure that the moving parts of the device are secured to avoid damage.

Additional precautions

Service and maintenance:

- Regularly check the condition of the gimbal or stabilizer, including moving parts, motors, and mounts, for damage or wear.
- In case of failure, contact an authorized service – do not attempt to repair the device yourself.

Safe disposal:

- Used batteries and other components should be disposed of in accordance with local electronic waste regulations.
- Do not dispose of the device in municipal waste – contact your local collection point for electrical equipment. If you need additional information regarding the product, contact customer service (email: hurt@innpro.pl, website: <https://innpro.pl/>) or another specialist.

Environmental Protection

Used electronic equipment marked in accordance with European Union directives must not be placed together with other municipal waste. It is subject to selective collection and recycling at designated points. By ensuring its proper disposal, you prevent potential negative consequences for the natural environment and human health. The system for collecting used equipment complies with locally applicable environmental protection regulations regarding waste disposal. Detailed information on this can be obtained from the municipal office, waste management facility, or the store where the product was purchased. The product meets the requirements of the so-called New Approach directives of the European Union (EU) concerning issues related to safety of use, health protection, and environmental protection, specifying hazards that should be detected and eliminated.
