Machine translation from Polski. In case of doubt the manufacturer's original document prevails.

User manual

Baseus Smooth Writing 2 Wireless Stylus for Phone/Tablet (pink)

Description

Unleash your creativity and draw like a professional! The Baseus stylus allows you to comfortably operate your iPad and lets you draw and write as if on real paper. The product is fully compatible with most iPads, features a sturdy design, and supports magnetic charging. You can customize its functionality to suit your needs — the stylus offers as many as 14 adjustable settings. It is very precise and works without delays, and once detected, the screen automatically stops responding to your hand, allowing you to write and draw freely. The package includes a replaceable tip.

Intended use

Avoid contact with moisture, for example in the bathroom, etc.

For safety and certification reasons, the device must not be modified or altered in any way. Using the product for purposes other than those described may result in damage to the product. Additionally, improper use may pose hazards. Read the user manual carefully and keep it for future reference.

Safety usage instructions

Read and follow the safety instructions contained in the manual.

1. The product is not a toy. Keep it out of reach of children and pets.
2. Protect the product from extreme temperatures, direct sunlight, strong vibrations, high humidity, moisture, flammable gases, vapors, and solvents.
3. Do not subject the product to mechanical stress.
4. If safe operation is no longer possible (the product is damaged, not functioning properly), discontinue use and secure the product against further use.
5. Handle the product with care. Shocks, impacts, or dropping the product may cause damage.
6. If there are any doubts regarding the operation, safety, or connection of the product, consult a qualified professional.
7. If you have any questions that are not answered in this manual, please contact our customer service office (email: hurt@innpro.pl, website: <https://innpro.pl/>) or another specialist.

Specification

Manufacturer: Baseus

Product number: SXBC060104

Connection type: Wireless/via app

Battery capacity: 125 mAh

Operating time: 10 h on a single charge/12 months in standby mode

Material: ABS + PC

Compatibility: iPad mini 6, Air 4, 5, and iPad Pro series 0-6

Dimensions: 165 x 9 mm

Weight: 13.5 g

Compatibility: iPad (6,7,8,9,10, mini 5, mini 6, air 3, air 4, air 5, Pro, Pro 3, Pro 2, Pro 4, Pro 5, Pro 6)

ENVIRONMENTAL PROTECTION

Waste electrical and electronic equipment marked in accordance with the European

Union directive must not be disposed of together with other municipal waste. It is subject to selective collection and recycling at designated points. By ensuring its proper disposal, you prevent potential negative consequences for the natural environment and human health. The waste collection system complies with locally applicable environmental protection regulations regarding waste disposal. Detailed information on this topic can be obtained from the municipal office, waste management facility, or the store where the product was purchased.

The product meets the requirements of the so-called New Approach directives of the European Union (EU) regarding safety, health protection, and environmental protection, identifying hazards that should be detected and eliminated.

Simplified declaration of conformity

SHENZHEN BASEUS TECHNOLOGY CO., LTD hereby declares that the type of radio device Wireless stylus for phone/tablet is in compliance with Directive 2014/53/EU. The full text of the EU declaration of conformity is available at the following website: <https://files.innpro.pl/Baseus>

Address: First floor, Building B, Baseus Intelligence Park, No. 2008, Xuegang Rd, Gangtou Community, Bantian Street, Longgang District, Shenzhen

Radio frequency: 2402 MHz - 2480 MHz

Max. radio frequency power: 1.90dBm

LI-ION battery

The device is equipped with a LI ION (lithium-ion) battery, which ages over time and usage due to its physical and chemical structure. The manufacturer specifies the maximum operating time of the device under laboratory conditions, where optimal operating conditions for the device exist, and the battery itself is new and fully charged. Actual operating time may differ from that declared in the offer and this is not a defect of the device but a characteristic of the product. To maintain the maximum lifespan of the battery, it is not recommended to discharge it below 3.18V or 15% of total capacity. Lower values, such as 2.5V for the cell, can permanently damage it and this is not covered by warranty. If the battery or the entire device is not used for more than one month, the battery should be charged to 50% and checked periodically every two months for its charge level. Store the battery and device in a dry place, away from sunlight and negative temperatures.

LIPO battery

The device is equipped with a LI PO (lithium-polymer) battery, which ages over time and usage due to its physical and chemical structure. The manufacturer specifies the maximum operating time of the device under laboratory conditions, where optimal operating conditions for the device exist, and the battery itself is new and fully charged. Actual operating time may differ from that declared in the offer and this is not a defect of the device but a characteristic of the product. To maintain the maximum lifespan of the battery, it is not recommended to discharge it below 3.5V or 5% of total capacity. Lower values, such as 3.2V for the cell, can permanently damage it and this is not covered by warranty. If the battery or the entire device is not used for more than one month, the battery should be charged to 50% and checked periodically every two months for its charge level. Store the battery and device in a dry place, away from sunlight and negative temperatures.

Precautions

Before starting to charge, check if the device contacts are clean.

Never leave the device unattended during use and charging.

Ensure that you can quickly disconnect the device from the power source in an emergency.

Never expose the device to high temperatures.

Charge the device in a dry and well-ventilated place, away from flammable materials, keeping a minimum distance of 1 m from other objects.

Never cover the device while charging.

Never use a power supply, charging station, cables, etc. without the manufacturer's recommendation and certification.

Take care of your property; the device is equipped with cells that are difficult to extinguish, equip yourself with a fire blanket.
