	Charge port 2 : 5V = 2.6A		
Product Size	107 x 115 x 17mm		
Texture Of Material	ABS + PC mixed plastic material		
Compatible Device	BOBOVR B2 Battery Pack		

REPAIR APPLICATION

Failure to follow the safety instructions below when using the battery pack may result in fire, electric shock, damage or other injury!

- Please use a charger that has safety certification and supports DC 5V2A or 5V3A for charging. It is strictly forbidden to charge with a charger that does not support DC 5V;
- Do not throw the product into fire or water, and do not expose it to sunlight or water;
- It is forbidden to disassemble, hit hard, or drop the product without authorization;
- When not in use for a long time, please charge the battery to more than 60%, store it in a dry environment at room temperature, and charge the battery pack every 5 months;
- Please do not wash or clean this product with chemicals;
- Discontinue use immediately if you notice leaks, odors, or smoke;
- The battery pack can only use approved adapters, do not connect incompatible adapters;
- Keep out of reach of children;
- Do not connect the QUEST2 for power supply while the battery pack is charging.

BOBOVR B2 BATTERY PACK

— sustain your experience

The BOBOVR B2 battery pack is a replaceable battery pack specially designed for the BOBOVR head strap. The standard power of the battery pack is 5200mAh.

The magnetic heat-absorbing plug-in design can effectively double the battery life of the Quest2, and multiple battery packs can be quickly replaced to achieve unlimited battery life.

B2 BATTERY PACK STRUCTURE

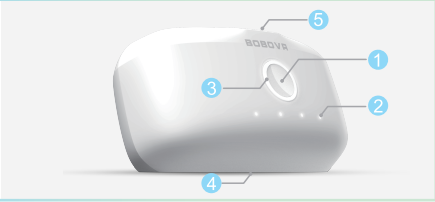

1 Button

2 Power indicator

3 Work indicator

4 Magnetic interface

5 Type-c interface

B2 BATTERY PACK PARAMETER

Battery Capacity	3.7V = 5200mAh, 19.24W
Rated Capacity	5V = 1.5A,3200mA
Input / Output Power	5V = 2.6A
0-100% Charging Time	About 3 hours
Product Size	85 x 47 x 32mm
Battery Type	Lithium battery
Compatible Device	BOBOVR Battery Head Strap,BOBOVR B2 Dock

OPERATING INSTRUCTIONS

Charge the B2 battery pack

(PS: Can only be charged via top USC port!)

Only one light is flashing, other lights are on or off: charging

Four lights are always on: the battery pack is fully charged

Four lights flashing at the same time: the temperature of the battery pack is too high, and it will automatically resume charging after the temperature has cooled down.

The BOBOVR B2 battery pack is equipped with 4 power indicator lights, which is convenient for mastering the power of the battery pack, and you can check the power of the battery pack at any time.

Indicator light				
Electric quantity	0%-25%	25%-50%	50%-75%	75%-100%

When not charging: All 4 lights of BOBOVR B2 battery pack flash and then go out, which belongs to the power alarm state, and the power is lower than 2%.

B2 BATTERY PACK TO POWER OTHER ACCESSORIES

- **Use the modified dock:** place the battery pack on the modified dock, and hen connect other accessories to supply power through the power line of the modified base;
- **Use the power cord:** insert the charging cord into the USC port on the top of B2 battery pack, and then connect the other end of the cable to other accessories for power supply;
