Machine translation from Polski. In case of doubt the manufacturer's original document prevails.

SMART GLASSES

This document is a translation of the original user manual created by the manufacturer. Detailed information about the warranty conditions from the distributor/manufacturer is available at

<https://serwis.innpro.pl/gwarancja>

The product has direct contact with the user's skin. In case of irritation or allergic reactions, discontinue use. Keep the device clean. Manufacturer's address: Xixiang Street Bao'an Internet

Industrial Base Room 320-321, 3 bldg Haoye community 0000 Baoan District, Shenzhen City, Guangdong, cn

Maintenance and storage Clean the product with a soft, dry, or slightly damp cloth. Do not use aggressive chemical agents. Store in a dry and cool place. Avoid drops and strong shocks. Disposal Do not dispose of the product in municipal waste. The product is subject to selective collection of electrical and electronic equipment (WEEE).

Maximum radio frequency power: <20dBm

Used batteries should be disposed of according to local regulations. Additional information The manufacturer/importer is responsible for the product's compliance with applicable regulations. Keep this instruction for future reference.

Used electronic equipment marked in accordance with the European Union directive must not be placed together with other municipal waste. It is subject to selective collection and recycling at designated points. The warranty does not cover damages resulting from neglect. The device is equipped with a LI-ION battery (lithium-ion), which ages over time due to its physical and chemical structure.

SAFETY INSTRUCTIONS – AI GLASSES (SMART GLASSES)

General information

The product is an electronic device designed for wearable use, equipped with smart features such as wireless communication, image and/or sound recording, and interaction with the user. The product is intended solely for consumer use according to its purpose.

General warnings Do not use the product in conditions that may cause damage or

malfunction.

To ensure maximum battery life, it is not recommended to discharge it below 3.18V or 15% of total capacity. Lower values, such as the so-called 2.5V for the cell, permanently damage it and are not covered by the warranty.

The product meets the requirements of the European Union's New Approach directives regarding issues related to environmental protection and waste disposal. Detailed information on the collection of used equipment is consistent with locally applicable environmental protection regulations.

In case of discontinuing use, safety of use, health protection, and use in a manner inconsistent with its intended purpose. The product is not a toy. Keep away from children under 3 years old. If the battery or the entire device is not used for more than one month, the battery should be charged to 50%. Environmental protection regulations specify hazards that should be detected and eliminated. Children and individuals requiring supervision should use the device under adult supervision. Do not use the device if it is damaged. Safety of use: Do not wear glasses while operating vehicles, riding a bicycle, or operating machinery. Using the device may cause distraction. In case of dizziness, discomfort, headache, or eye fatigue – immediately stop using it. Do not use the device for extended periods without breaks. Safety of vision and health: The device may emit light or display content close to the eyes – use it in moderation. Individuals with epilepsy or light sensitivity should consult a doctor before use. Avoid using at very high brightness for extended periods. Privacy and recording: The device may be equipped with a camera and/or microphone. Comply with applicable privacy and recording regulations. Do not record individuals without their consent. Use the device in accordance with local law. Electrical safety and battery: Use only original or recommended accessories and chargers. Do not expose the device to high temperatures, fire, or moisture. Do not disassemble or modify the device. In case of overheating, burning smell, or damage – immediately stop using it. Wireless connectivity: The product uses wireless technologies (e.g., Bluetooth, Wi-Fi). It may cause interference with the operation of other devices. Do not use in places where the use of electronic devices is prohibited (e.g., airplanes, hospitals – according to regulations). Contact with skin: The product has direct contact with the user's skin. In case of irritation or allergic reactions, discontinue use. Keep the device clean. Simplified EU Declaration of Conformity: Shenzhen COLMI Technology Co., Ltd hereby declares that the type of radio device AI Glasses COLMI M01Pro is compliant with Directive 2014/53/EU. SAFETY INSTRUCTION – AI GLASSES (SMART usage).

The manufacturer specifies that the maximum operating time for collecting used equipment is in accordance with local regulations regarding waste disposal. General information indicates optimal operating conditions for the device in laboratory conditions, where applicable environmental protection regulations are in effect. The battery itself is new and fully charged. Actual operating time may differ from the declared time, and this is not a defect of the device but a product feature. The product is an electronic device intended for consumer use according to its purpose. General warnings Do not use the product in a manner inconsistent with its intended use. The product is not a toy. Keep away from children under 3 years old. If the battery or the entire device is not used for more than one month, the battery should be charged to 50% and checked periodically every two months for its charge level. Store the battery and device in a dry place, away from sunlight and negative temperatures. Importer: INNPRO Robert Błędowski sp. z o.o.
