Warnings and safety information

All information concerning the use of the products can be found in the accompanying operating instructions. Before installation or use, read its contents and follow the manufacturer's recommendations.

Also read the following information before use:

Warnings for use

Risk of damage to the device:

- Computer enclosures should only be used for their intended purpose - to mount and protect computer components.
- Do not place the case in areas exposed to high humidity, extreme temperatures or direct sunlight.
- Avoid transporting the case with installed components if it is not properly protected for this purpose.

Danger for the user:

- When assembling components inside the enclosure, always disconnect the device from the power source to avoid the risk of electric shock.
- Handle with care any sharp edges inside the housing, which may lead to injuries.
- Ensure that the fans (if built-in) are correctly fixed and connected to avoid them becoming disconnected during operation.

Airflow risks:

- Do not block the case vents to ensure proper airflow and component cooling.
- If the chassis does not have fans, make sure you install adequate cooling elements to prevent components from overheating.

Information on correct use

Preparation and configuration:

- Before installation, ensure that all mounting holes are compatible with the motherboard and other components.

- For chassis with built-in fans, check that they are correctly fixed and operate without interference.
- If the enclosure has a power supply, make sure it meets the power requirements of your system.

Safe use:

- Place the case on a stable, level surface to prevent it from tipping over.
- Regularly check that dust is not blocking the vents, which can lead to overheating.
- Ensure that all cables inside the case are well organised and do not block the airflow.

Additional precautions

- **Cleaning and maintenance:** Regularly remove dust from the case, especially from the vents and dust filters. Use compressed air or a soft cloth.
- **Fans:** If the chassis has built-in fans, regularly check their condition. In case of noise or rotation problems, replace the fan with a new one according to the manufacturer's recommendations.
- **Cable organisation:** Use cable ties or cable organisers to prevent damage to cables and to improve airflow.

Statement of conformity

The computer enclosures are designed in accordance with the safety requirements of Regulation (EU) 2023/988. They meet the requirements for operational safety, electromagnetic compatibility (EMC) and component protection.
