

User Manual

Cooler Master SickleFlow Edge 120 ARGB fan (white)

Description

Cooler Master SickleFlow Edge 120 ARGB is a fan designed for computer enthusiasts who expect not only effective cooling, but also aesthetic design. With its improved blades, modern frame design and quiet dynamic bearing operation, among other things, it will be perfect for gaming setups. It is also distinguished by colorful ARGB backlighting, so you can give your PC setup a unique character.

Intended use

For safety and certification reasons, the device must not be remodeled or altered in any way. If the product is used for purposes other than those described, the product may be damaged. In addition, use not in accordance with the intended purpose may cause hazards. Carefully read the instruction manual and keep it for future use.

Safety instructions for use

Read and follow the safety instructions in the manual.

1. The product is not a toy. Keep it out of the reach of children and pets.
2. Protect the product from extreme temperatures, direct sunlight, strong vibration, high humidity, moisture, flammable gases, vapors and solvents.
3. Do not expose the product to mechanical stress.
4. If safe operation is no longer possible (the product is damaged, does not work properly), discontinue use and secure the product before reuse.
5. Handle the product with care. Shock, impact or dropping the product may cause damage.
6. If there are doubts about the operation, safety or connection of the product, consult a qualified professional.
7. If there are any questions that are not answered in this manual, please contact our customer service (email: hurt@innpro.pl, website: <https://innpro.pl/>) or another specialist.

Specification

Manufacturer: Master Cooler

Model: MFX-B2DW-25NP2-R2

Color: White

Fan dimensions: 120 x 120 x 25 mm

Backlight type: ARGB Gen 2

: 690~2500± 10% RPM Airflow: 120 m³/h

(70.7 CFM) Noise level: 32.8 dB(A)

Bearing type: Loop dynamic bearing

Pressure: 3.61 mmH2O

Lifetime (MTTF): > 160,000 hours

Power connector: 4-pin (PWM) Rated

voltage: 12 VDC Current: 0.2 A

Safety current: 0.3 A

Power consumption: 2.4

W ARGB connector: 3-

pin

ARGB rated voltage: 5 VDC ARGB rated

current: 0.21 A Weight: 168 g

Number of pieces : 1

Environmental protection

Waste electronic equipment labeled in accordance with the European Union directive, must not be placed together with other municipal waste. It is subject to separate collection and recycling at designated points. By ensuring its proper disposal, you prevent potential negative consequences for the environment and human health. The collection system for used equipment complies with locally applicable environmental regulations on waste disposal. Detailed information on this subject can be obtained from the municipal office, the purification plant or the store where the product was purchased.

The product meets the requirements of the directives of the so-called New Approach of the European Union (EU) on issues related to safety of use, health protection and environmental protection, specifying the risks that should be detected and eliminated.
