This document is a translation of the original user manual
created by the manufacturer.

The product should be regularly maintained (cleaned) by the user
or by specialized service points at the user's cost and responsibility.

In the absence of information about necessary periodic or
service maintenance actions in the user manual, the user should
regularly, at least once a week, assess the physical condition

of the product against that of a physically new product.

If any deviation is detected or established, urgent maintenance (cleaning) or service actions should be taken.

Failure to properly maintain (clean) and respond upon detecting a state of deviation may lead to permanent damage to the product. The guarantor is not liable for damages resulting from negligence.
