- Before removing the front panel, remove the side panels on both sides.
- When installing the power supply, the power supply opening should face the cooling hole of the case.
- Supports ATX/MICRO ATX/ITX motherboards. - Remove the partition to secure the screw and fasten it.
- Align with the position of the hard drive and secure with screws.
Safety Notes

- Installation should be performed by individuals with appropriate technical knowledge of PC construction.
- To avoid damaging the computer, avoid touching contacts, wires, and electronic circuits. Contact with electronic components should be minimized.
- The manufacturer is not responsible for damages and injuries caused by failure to follow safety instructions and information contained in this user manual.
- The product and its packaging should be kept out of reach of children and pets. The packaging includes plastic wrap, which a child could suffocate on while playing.
- Mechanical stress on the product is prohibited - strong shocks, impacts, drops, or crushing of the product may cause damage.
- The product is not allowed to operate under unfavorable conditions. Unfavorable conditions primarily include: exposure to direct sunlight, high or very low ambient temperatures, strong vibrations, high humidity, environments with gases, dust, or flammable and aggressive liquids.
- If the product has been damaged or stored for an extended period under poor or unfavorable conditions, safe operation of the device is not possible. The use of the product must be discontinued immediately, and for safety reasons, it should be secured against reuse.
- Before assembling the computer, consider the user manuals of all components that will be inside the case.
- Wear gloves to prevent accidents during the installation of components.
- Do not apply excessive force during assembly, as it may cause serious damage to the case.
- Incorrect connection of cables and wires may cause a fire due to a short circuit. When connecting, refer to the instructions of the other components.
- Be careful not to block ventilation openings.
- Do not insert hands or other objects into the case while the computer is operating. This poses a risk of injury to the hand or damage to the device.
- The case should remain closed during computer operation, and the side panels should be properly secured with screws.
- Under no circumstances should the product and power cables be handled with wet or damp hands. This poses a risk of fatal electric shock.
- In case of doubts regarding operation, safety, or connecting the product, please contact the Manufacturer or a qualified professional.
- All maintenance, adjustment, and repair work on the product may only be carried out by a qualified person in a specialized facility.

## Environmental Protection

Used electronic equipment marked in accordance with the European Union directive must not be disposed of with other municipal waste. It is subject to selective collection and recycling at designated points. By ensuring its proper disposal, you prevent potential negative consequences for the natural environment and human health. The system for collecting used equipment complies with locally applicable environmental protection regulations regarding waste disposal. Detailed information on this can be obtained from the municipal office, cleaning facility, or the store where the product was purchased.

The product meets the requirements of the so-called New Approach directives of the European Union (EU) regarding safety, health protection, and environmental protection, which define hazards that should be detected and eliminated.

Detailed information about the warranty conditions from the distributor/manufacturer is available on the website https://serwis.innpro.pl/gwarancja.
