Safety Notes

- The manufacturer of the product is not responsible for damages and injuries caused by failure to follow safety instructions and information contained in this user manual.
- The product and its packaging should be kept out of reach of children and pets. The packaging includes plastic wrap, which a child could suffocate on while playing.
- The product should be used for its intended purpose. Improper use may cause damage to the product and be hazardous to health.
- Before use, ensure that the product is in proper condition.
- Mechanical loading of the product is prohibited - strong shocks, impacts, drops, or crushing of the product may cause damage.
- The product is not allowed to operate under unfavorable conditions. Unfavorable conditions primarily include: exposure to direct sunlight, high or very low ambient temperatures, strong vibrations, high humidity, environments with gases, dust, or flammable and aggressive liquids.
- If the product has been damaged or stored for an extended period under poor or unfavorable conditions, safe operation of the device is not possible. Use of the product must be stopped immediately, and for safety reasons, it should be secured against reuse.
- Care should be taken not to block the ventilation openings.
- To prevent damage caused by condensation, allow the device to warm up to room temperature before use.
- Do not insert hands or other objects into the product.
- Clean only with a dry, clean cloth. Do not touch with wet hands.
- In case of doubts regarding operation, safety, or connecting the product, please contact the manufacturer or a qualified professional.
- Any maintenance, adjustment, and repair work on the product may only be carried out by a qualified person.

This document is a translation of the original user manual created by the manufacturer.

The product should be regularly maintained (cleaned) by the user or through specialized service points at the user's cost and responsibility. If there is no information about necessary periodic or service maintenance actions in the user manual, the physical condition of the product should be assessed regularly, at least once a week, against that of a physically new product. If any deviation is detected or identified, urgent maintenance (cleaning) or service steps should be taken. Failure to properly maintain (clean) and respond upon detection of a deviation may lead to permanent damage to the product. The guarantor is not responsible for damages resulting from neglect.
