This document is a translation of the original user manual created by the manufacturer.

The product should be regularly maintained (cleaned) either by the user or by specialized service points at the user's cost and scope. If there is no information about necessary periodic or service maintenance actions in the user manual, the physical condition of the product should be assessed regularly, at least once a week, against that of a physically new product. If any deviation is detected or noted, urgent maintenance (cleaning) or service steps should be taken. Failure to properly maintain (clean) and respond upon detecting a deviation may lead to permanent damage to the product. The guarantor is not responsible for damages resulting from neglect.
