User Manual

EcoFlow EV X-Stream Adapter Delta Pro 3

Description

The EcoFlow EV X-Stream Adapter allows you to charge the DELTA Pro 3 power station using level 2 electric vehicle charging stations. It offers power of up to 7200 W and is compatible with SAE J1772 connectors. You can easily use it almost anywhere in the world! This is the perfect solution for DELTA Pro 3 station users who want to charge it quickly and conveniently at home or on the go.

Intended Use

For safety and certification reasons, the product must not be modified or altered in any way. Using the product for purposes other than those described may damage the product. Additionally, improper use may pose hazards. Please read the user manual carefully and keep it for future reference. You must read and follow the safety instructions contained in the manual.

1. The product is not a toy. Keep it out of reach of children and pets.
2. If safe operation is no longer possible (the product is damaged, not functioning properly), discontinue use and secure the product against further use.
3. Handle the product with care. Shocks, impacts, or dropping the product may cause damage.
4. If there are any doubts regarding operation or safety, consult a qualified professional.
5. If you have any questions that are not answered in this manual, please contact our customer service office (email: hurt@innpro.pl, website: <https://innpro.pl/>) or another specialist.

Specification

Environmental Protection

Used electronic equipment marked in accordance with the European Union directive must not be disposed of together with other municipal waste. It is subject to selective collection and recycling at designated points. By ensuring its proper disposal, you prevent potential negative consequences for the natural environment and human health. The collection system for used equipment complies with locally applicable environmental regulations regarding waste disposal. Detailed information on this can be obtained from the municipal office, waste management facility, or the store where the product was purchased.

The product meets the requirements of the so-called New Approach directives of the European Union (EU) concerning safety, health protection, and environmental protection, which specify hazards that should be identified and eliminated.

This document is a translation of the original user manual created by the manufacturer.

Detailed information about the distributor/manufacturer warranty conditions is available at the website <https://serwis.innpro.pl/gwarancja>

The product should be regularly maintained (cleaned) by the user or through specialized service points at the user's cost and responsibility. If there is no information about necessary periodic or service maintenance actions in the user manual, the user should regularly, at least once a week, assess the physical condition of the product against that of a physically new product. If any deviation is detected or identified, urgent maintenance (cleaning) or service steps should be taken. Failure to properly maintain (clean) and respond upon detecting a state of deviation may lead to permanent damage to the product. The warranty does not cover damages resulting from negligence.
