Power Bank EcoFlow RAPID Pro

300W, 140W-Cable

User Manual

General Safety Guidelines

Disclaimer: The product includes the necessary printed documentation required for configuration and basic operation. Detailed operating instructions, supplementary materials, and the latest product information can be found at

<https://www.ecoflow.com/support/download/>. Before use, please read the product documentation carefully. Improper use may result in serious injury, damage, or material loss. By using this product, you agree to all terms specified in the product documentation and accept them. EcoFlow is not responsible for losses, damages, or injuries caused by improper use or failure to follow the guidelines. • Due to the energy conversion efficiency of the power bank, the actual capacity is less than the nominal battery capacity. • Use the product according to the operating instructions contained in this manual. Improper use may damage the product or pose a risk to persons and property. • Check and ensure that the charging voltage of your digital device is compatible with the output voltage of the power bank. • Choose and use the original charging cable for your digital device. • Please regularly charge the power bank to extend its lifespan. • WARNING: Risk of fire and burns. Do not open, crush, heat above 45°C, or incinerate. • Do not use the power bank that has been submerged in water. For disposal, contact a battery recycling company. • Keep the product away from water, fire, and heat sources. • To reduce the risk of injury, strict supervision is necessary when using the product near children. • If the product shows visible deformation, leakage, or damage, immediately cease use and contact a recycling company for disposal. • The product contains no user-serviceable parts, and the battery is not replaceable. • Throwing the battery into fire or a heating furnace, as well as mechanically crushing or cutting the battery, may cause an explosion. • Placing the battery in an environment with extremely high temperatures or low air pressure may cause an explosion or leakage of flammable liquids or gases. • The product automatically enters standby mode when not in use. • Do not expose the product to fire or excessive temperature. Contact with fire or

temperatures above 100°C may cause an explosion. • Do not expose the product to rain or snow. • Do not disassemble, repair, or modify this product yourself. For any repair services, please contact EcoFlow customer service.

Model: EF-HB-140

Dimensions: 166 x 55 x 58.8 mm (6.5 x 2.2 x 2.3 inches)

Weight: 710 g (1.56 lbs)

Charging Temperature: 0°C to 45°C (32°F–113°F)

Discharging Temperature: -10°C to 45°C (14°F–113°F)

Storage Temperature: -20°C to 45°C (-4°F–113°F)

Altitude: ≤3000 m (9842.5 ft)

SIMPLIFIED EU DECLARATION OF CONFORMITY

EcoFlow Inc. hereby declares that the type of radio equipment [Power Bank EcoFlow RAPID Pro 300W, 140W-Cable] complies with Directive 2014/53/EU. The full text of the EU declaration of conformity is available at the following address: <https://files.innpro.pl/ecoflow>

Manufacturer's Address:

RM 401, Plant #1, Runheng Industrial Zone, Fuyuan Road, Zhancheng Community, Fuhai Street, Bao'an District, Shenzhen City, Guangdong Province, China

Radio Frequency: 2400-2483.5 MHz

Maximum Radio Frequency Power: 20 dBm

Environmental Protection

Waste electrical and electronic equipment marked in accordance with European Union directives must not be placed together with other municipal waste. It is subject to selective collection and recycling at designated points. By ensuring its proper disposal, you prevent potential negative consequences for the natural environment and human health. The waste collection system complies with locally applicable environmental regulations regarding waste disposal. Detailed information on this can be obtained from the municipal office, cleaning

facility, or the store where the product was purchased. The product meets the requirements of the so-called New Approach directives of the European Union (EU) regarding issues related to user safety, health protection, and environmental protection, identifying hazards that should be detected and eliminated.

This document is a translation of the original user manual created by the manufacturer. Detailed information about the distributor/manufacturer warranty conditions is available on the website <https://serwis.innpro.pl/gwarancja>

The product should be regularly maintained (cleaned) at the user's own expense or by specialized service points. In the absence of information about necessary periodic or service maintenance actions in the user manual, the user should regularly, at least once a week, assess the deviation of the product's physical condition from that of a physically new product. If any deviation is detected or identified, urgent maintenance (cleaning) or service actions should be taken. Failure to perform proper maintenance (cleaning) and to react upon detecting a state of deviation may lead to permanent damage to the product. The guarantor is not responsible for damages resulting from negligence.
