

# Kabel EcoFlow DELTA Pro (podłączenie dodatkowej baterii)

ECOFLOW · EAN 4897082666516

Machine translation from Polski. In case of doubt the manufacturer's original document prevails.

## User Manual

### EcoFlow DELTA Pro Cable (connecting an additional battery)

#### Description

Emphasizing the importance of efficiency and integration within the EcoFlow ecosystem, we present the cable that allows you to connect the DELTA Pro to the Smart Extra Battery. This key component connects directly to the Extra Battery port located on the back of the device, enabling quick and easy expansion of your power station's capabilities.

#### Intended Use

For safety and certification reasons, the product must not be modified or altered in any way. Using the product for purposes other than those described may result in damage to the product. Furthermore, improper use may pose hazards. Please read the user manual carefully and keep it for future reference. It is essential to read and follow the safety instructions contained in the manual.

1. The product is not a toy. Keep it out of reach of children and pets.
2. If safe operation is no longer possible (the product is damaged, not functioning correctly), discontinue use and secure the product against reuse.
3. Handle the product with care. Shocks, impacts, or dropping the product may cause damage.
4. If there are any doubts regarding operation or safety, consult a qualified professional.
5. If you have any questions that are not answered in this manual, please contact our customer service office (email: [hurt@innpro.pl](mailto:hurt@innpro.pl), website: <https://innpro.pl/>) or another specialist.

Responsible entity in the EU:

EcoFlow Inc.

Speditionstraße 17, 40221 Düsseldorf, Germany support.en@ecoflow.com

Environmental Protection

Used electronic equipment marked in accordance with the European Union directive must not be disposed of together with other municipal waste. It is subject to selective collection and recycling at designated points. By ensuring its proper disposal, you prevent potential negative consequences for the natural environment and human health. The system for collecting used equipment complies with locally applicable environmental regulations regarding waste disposal. Detailed information on this can be obtained from the municipal office, waste management facility, or the store where the product was purchased.

The product meets the requirements of the so-called New Approach directives of the European Union (EU) concerning safety, health protection, and environmental protection, specifying hazards that should be detected and eliminated.

This document is a translation of the original user manual created by the manufacturer.

Detailed information on the distributor/manufacturer warranty conditions is available on the website <https://serwis.innpro.pl/gwarancja>

The product should be regularly maintained (cleaned) by the user or through specialized service points at the user's cost and responsibility. If there is no information about necessary periodic or service maintenance actions in the user manual, the physical condition of the product should be assessed regularly, at least once a week, against that of a physically new product. If any discrepancies are detected or identified, urgent maintenance (cleaning) or service actions should be taken. Failure to properly maintain (clean) and respond upon detecting a state of discrepancy may lead to permanent damage to the product. The warranty provider is not responsible for damages resulting from negligence.
