User Manual

Bluetooth Headset for Helmet EJEAS E1+

Description

Freedom of conversation, clear sound, and stable connectivity are the foundation of an enjoyable motorcycle ride. The EJEAS E1+ model combines advanced Qualcomm Bluetooth 5.1 technology with high-quality audio processing and CVC noise reduction technology, ensuring clear communication even in demanding road conditions. Long battery life, support for two phones simultaneously, and integration with the Q7 intercom make it a versatile solution for motorcyclists traveling solo or in pairs. Meanwhile, intuitive operation, automatic call answering, and voice assistant support allow you to focus entirely on riding.

Intended Use

For safety and certification reasons, the product must not be modified or altered in any way. Using the product for purposes other than those described may result in damage to the product. Furthermore, improper use may pose hazards. Please read the user manual carefully and keep it for future reference. It is essential to read and follow the safety instructions contained in the manual.

1. The product is not a toy. Keep it out of reach of children and pets.
2. Protect the product from extreme temperatures, direct sunlight, strong vibrations, high humidity, moisture, flammable gases, vapors, and solvents.
3. Do not expose the product to mechanical loads.
4. If safe operation is no longer possible (the product is damaged, not functioning correctly), discontinue use and secure the product against reuse.
5. Handle the product with care. Shocks, impacts, or dropping the product may cause damage.
6. If there are any doubts regarding operation or safety, consult a qualified professional.
7. If you have any questions not answered in this manual, please contact our customer service office (email: hurt@innpro.pl, website: <https://innpro.pl/>) or another specialist.

Environmental Protection

Used electronic equipment marked in accordance with the European Union directive must not be disposed of with other municipal waste. It is subject to selective collection and recycling at designated points. By ensuring its proper disposal, you prevent potential negative consequences for the natural environment and human health. The system for collecting used equipment complies with locally applicable environmental regulations regarding waste disposal. Detailed information on this can be obtained from the municipal office, waste management facility, or the store where the product was purchased.

The product meets the requirements of the so-called New Approach directives of the European Union (EU) concerning safety, health protection, and environmental protection,

identifying hazards that should be detected and eliminated.
