Compatible with a tripod. Connect to the computer. Install the camera. Warnings and safety information Wireless connectivity

All information regarding product usage can be found in the manual. Data protection:

Manufacturer information: user manual. Before you start using it, familiarize yourself with its content and follow ●If the camera offers wireless connectivity, use only the official applications from the manufacturer downloaded from trusted sources. Web1www.emeet.com

Before use, also review the following information: ●Regularly update the camera software to protect it from potential threats. Address: Unit 03, 9/F, Austin Plaza, No. 83 Austin Road,

Kowloon Risk of camera damage: ●Use the camera according to its intended purpose and

the user manual. Responsible person: ●Avoid using the product in extreme conditions, such as excessive humidity, high temperatures, or severe frost, to prevent permanent damage.

●Mount the device only on stable surfaces or in appropriate mounts to avoid falling.

●Secure access to the camera and application with a strong password and enable two-factor authentication if available. ●Control the list of paired devices and remove those that should

not have access to the camera. ●Limit the ability to pair devices only to users you trust.

●Avoid cleaning the lens and screen with sharp or chemical agents that may damage protective coatings. Proper usage information

Connecting and setup:

●If the camera is waterproof, use it only within the depth and conditions specified by the manufacturer. Exceeding these limits may cause damage to the device. Before each use in water, ensure that all seals are properly installed and show no signs of damage or wear.

●Before first use, configure the camera according to the user manual, ensuring that all settings are adjusted to the planned usage conditions. ●If you plan to connect additional accessories, such as microphones, lighting, or gimbals, ensure they are compatible with the

camera model. ●When mounting the camera on vehicles, clothing, or other surfaces, ensure it is securely attached to avoid falling or losing it. Child hazard: ●Store the camera in an appropriate bag or protective case to protect it from mechanical damage, contamination, and moisture. ●Cameras and accessories, such as batteries, cables, or memory cards, are not intended for use by children. ●Transport the camera in properly secured luggage to prevent it from moving during transport. ●Store the device in a place inaccessible to children to prevent accidental damage to the equipment or swallowing of small parts.

Additional precautions

Service and Maintenance:

Risk of Overheating:

- Regularly clean the lens and other camera elements with a soft cloth or dedicated cleaning agents for photographic equipment.
- During intensive use of the camera, monitor its temperature – in case of overheating, turn off the device and allow it to cool down.
- Do not leave the camera in places exposed to direct sunlight.

Safe Disposal:

Risk of Electric Shock:

- If the camera requires wired power, ensure that the power source complies with its technical specifications.
- Never handle the device's cables or ports with wet hands.
- Do not dispose of the camera with municipal waste – contact your local electrical equipment collection point. If you need additional product information, contact customer service (email: hurt@innpro.pl, website: <https://innpro.pl/>) or another specialist.

Environmental Protection

Used electronic equipment marked in accordance with the European Union directive must not be placed together with other municipal waste. It is subject to selective collection and recycling at designated points. By ensuring its proper disposal, you prevent potential negative consequences for the natural environment and human health. The collection system for used equipment complies with locally applicable environmental protection regulations regarding waste disposal. Detailed information on this can be obtained from the municipal office, cleaning facility, or the store where the product was purchased. The product meets the requirements of the so-called New Approach directives of the European Union (EU) concerning issues related to user safety, health protection, and environmental

protection, specifying hazards that should be detected and eliminated. This document is a translation of the original user manual created by the manufacturer. Detailed information about the distributor/manufacturer's warranty conditions is available on the website <https://serwis.innpro.pl/gwarancja>.

The product should be regularly maintained (cleaned) by the user or through specialized service points at the user's cost and scope. In the absence of information about necessary periodic or service maintenance actions in the user manual, the physical condition of the product should be assessed regularly, at least once a week, against that of a physically new product. If any deviation is detected or identified, urgent maintenance (cleaning) or servicing steps should be taken. Failure to properly maintain (clean) and respond upon detecting a state of deviation may lead to permanent damage to the product. The guarantor is not responsible for damages resulting from neglect.
