User Manual

Flextail L Vacuum Storage Bags

Description

Flextail L vacuum bags allow you to reduce the volume of clothing or textiles by up to 80% by removing air from inside the tightly sealed bag, making it easier to pack into a suitcase and for long-term storage at home. The size of 60 × 80 cm accommodates about 10–12 sweaters or a similar amount of soft clothing, creating a compact, stable package that takes up significantly less space. The valve design is intended to work with Flextail pumps, such as Tiny Pump 2X or Max Pump 3, which provide quick compression and a more durable vacuum effect than manual methods. The airtight material protects the contents from moisture, dust, and odors, while the transparent form allows for easy identification of the contents without opening. The set includes four bags.

Intended Use

For safety and certification reasons, the product must not be modified or altered in any way. Using the product for purposes other than those described may result in damage to the product. Furthermore, improper use may pose hazards. Please read the user manual carefully and keep it for future reference. It is important to read and follow the safety instructions contained in the manual.

1. The product is not a toy. Keep it out of reach of children and pets.
2. Protect the product from extreme temperatures, direct sunlight, strong vibrations, high humidity, moisture, flammable gases, vapors, and solvents.
3. Do not expose the product to mechanical loads.
4. If safe operation is no longer possible (the product is damaged, not functioning properly), discontinue use and secure the product to prevent reuse.
5. Handle the product with care. Shocks, impacts, or dropping the product may cause damage.
6. If there are any doubts regarding operation or safety, consult a qualified professional.
7. If you have any questions that are not answered in this manual, please contact our customer service office (email: hurt@innpro.pl, website: <https://innpro.pl/>) or another

specialist.
