Machine translation from Polski. In case of doubt the manufacturer's original document prevails.

User Manual

Flextail AVS Capsule Air Capsule

Description

The Flextail AVS Capsule air capsule automatically inflates the sleeping mat with air, allowing you to set up your campsite without wasting time on manual pumping or searching for an additional pump. Simply connect it to the valve of a compatible Flextail mat from the Tiny Sleeping Mat series and start it, and the inflation process will proceed automatically until the target volume is reached. This is especially noticeable after a long hike when you want to quickly prepare a resting place without physical effort. The automatic stop after inflation means you do not have to monitor the process or worry about excessive pressure in the chambers. In practice, this minimizes the time needed to set up a camp and allows you to focus on recovery.

Intended Use

For safety and certification reasons, the product must not be modified or altered in any way. Using the product for purposes other than those described may result in damage to the product. Additionally, improper use may pose hazards. Please read the user manual carefully and keep it for future reference. You must read and follow the safety instructions contained in the manual.

1. The product is not a toy. Keep it out of reach of children and pets.
2. Protect the product from extreme temperatures, direct sunlight, strong vibrations, high humidity, moisture, flammable gases, vapors, and solvents.
3. Do not expose the product to mechanical loads.
4. If safe operation is no longer possible (the product is damaged, not functioning properly), discontinue use and secure the product to prevent reuse.
5. Handle the product with care. Shocks, impacts, or dropping the product may cause damage.
6. If there are any doubts regarding operation or safety, consult a qualified professional.
7. If you have any questions that are not answered in this manual, please contact our customer service office (email: hurt@innpro.pl, website: <https://innpro.pl/>) or another

specialist.

Specification

Model: AVS-G

Input Voltage: 5 V 0.8 A

Rated Power: 7 W

Environmental Protection

Used electronic equipment marked in accordance with the European Union directive must not be placed together with other municipal waste. It is subject to selective collection and recycling at designated points. By ensuring its proper disposal, you prevent potential negative consequences for the natural environment and human health. The system for collecting used equipment complies with locally applicable environmental protection regulations regarding waste disposal. Detailed information on this can be obtained from the municipal office, waste management facility, or the store where the product was purchased. The product meets the requirements of the so-called New Approach directives of the European Union (EU) concerning safety, health protection, and environmental protection, which define hazards that should be detected and eliminated.
