User Manual

Freewell Filter Set for DJI O4 Air Unit Pro

Description

The Freewell ND filter set is an indispensable accessory for drone owners using the DJI O4 Air Unit Pro. The set includes four filters – ND8, ND16, ND32, and ND64 – which effectively reduce the amount of light entering the lens in sunny conditions. With these filters, you will capture smooth, cinematic shots with accurately reproduced colors and proper exposure. The filters are made from high-quality optical glass, and their design ensures lightness, durability, and a perfect fit for the camera – without affecting the gimbal's operation. This is the choice for demanding creators who want to maximize the capabilities of their DJI O4 Air Unit Pro.

Intended Use

For safety and certification reasons, the device must not be modified or altered in any way. Using the product for purposes other than those described may result in damage to the product. Additionally, improper use may pose hazards. Please read the user manual carefully and keep it for future reference.

Safety Usage Guidelines

You must read and follow the safety guidelines contained in the manual.

1. The product is not a toy. Keep it out of reach of children and pets.
2. Protect the product from extreme temperatures, direct sunlight, strong vibrations, high humidity, moisture, flammable gases, vapors, and solvents.
3. Do not expose the product to mechanical loads.
4. If safe operation is no longer possible (the product is damaged, not functioning properly), stop using it and secure the product against further use.
5. Handle the product with care. Shocks, impacts, or dropping the product may cause damage.
6. If there are any doubts regarding the operation, safety, or connection of the product, consult a qualified professional.

7. If you have any questions that are not answered in this manual, please contact our customer service office (email: hurt@innpro.pl, website: <https://innpro.pl/>) or another specialist.
