Machine translation from Polski. In case of doubt the manufacturer's original document prevails.

User Manual

Freewell ND16 Filter for DJI Mini 5 Pro

Description

The Freewell ND16 filter is a practical accessory for the DJI Mini 5 Pro drone, designed for filming and photographing in intense daylight. It helps to reduce the amount of light entering the lens, which is particularly useful when recording on sunny days. This makes it easier to achieve a smooth, cinematic motion blur effect and avoid overexposed frames.

Intended Use

For safety and certification reasons, the product must not be modified or altered in any way. Using the product for purposes other than those described may result in damage to the product. Additionally, improper use may pose hazards. Please read the user manual carefully and keep it for future reference. It is important to read and follow the safety instructions contained in the manual.

1. The product is not a toy. Keep it out of reach of children and pets.
2. Protect the product from extreme temperatures, direct sunlight, strong vibrations, high humidity, moisture, flammable gases, vapors, and solvents.
3. Do not expose the product to mechanical stress.
4. If safe operation is no longer possible (the product is damaged, not functioning properly), discontinue use and secure the product against further use.
5. Handle the product with care. Shocks, impacts, or dropping the product may cause damage.
6. If there are any doubts regarding operation or safety, consult a qualified professional.
7. If you have any questions that are not answered in this manual, please contact our customer service office (email: hurt@innpro.pl, website: <https://innpro.pl/>) or another specialist.
