Machine translation from Polski. In case of doubt the manufacturer's original document prevails.

User Manual

Freewell ND32 Filter for DJI Mini 5 Pro

Description

The Freewell ND32 filter for DJI Mini 5 Pro is designed for use in very bright environments – especially during flights in full, midday sun. By reducing the amount of light by 5 stops, it effectively allows for exposure control and prevents overexposure, which often occurs when filming in intense lighting conditions.

Intended Use

For safety and certification reasons, the product must not be modified or altered in any way. Using the product for purposes other than those described may result in damage to the product. Additionally, improper use may pose hazards. Please read the user manual carefully and keep it for future reference. The safety instructions contained in the manual must be read and followed.

1. The product is not a toy. Keep it out of reach of children and pets.
2. Protect the product from extreme temperatures, direct sunlight, strong vibrations, high humidity, moisture, flammable gases, vapors, and solvents.
3. Do not expose the product to mechanical stress.
4. If safe operation is no longer possible (the product is damaged, not functioning properly), discontinue use and secure the product against further use.
5. Handle the product with care. Shocks, impacts, or dropping the product may cause damage.
6. If there are any doubts regarding operation or safety, consult a qualified professional.
7. If you have any questions that are not answered in this manual, please contact our customer service office (email: hurt@innpro.pl, website: <https://innpro.pl/>) or another specialist.
