

User Manual

Freewell Brandon Li 82mm Variable ND/CPL Filter Set

Description

The Freewell Brandon Li Basic Kit 82 mm is a magnetic filter set designed for photography and filmmaking in changing lighting conditions. The main module combines an adjustable 1–5 stop VND filter with an independently controlled CPL polarizing filter, and the included ND32 filter allows expanding the light reduction range to 6–10 stops, providing a total range of 1 to 10 stops. The set also includes an 82 mm base ring, front and rear lens caps, a filter pouch, a buckle accessory, and a cleaning cloth.

Intended Use

For safety and certification reasons, the product must not be modified or altered in any way. Using the product for purposes other than those described may result in damage to the product. Improper use may also cause hazards. Read the user manual carefully and keep it for future reference. Always read and follow the safety instructions contained in this manual.

1. The product is not a toy. Keep it out of reach of children and animals.
2. Protect the product from extreme temperatures, direct sunlight, strong vibrations, high humidity, moisture, flammable gases, vapours and solvents.
3. Do not subject the product to mechanical stress.
4. If safe operation is no longer possible (the product is damaged or does not work properly), stop using it and secure it against unintended use.
5. Handle the product with care. Shocks, impacts or dropping the product may cause damage.
6. If in doubt about the operation or safety of the product, consult a qualified specialist.
7. If you have any questions that are not answered in this manual, please contact our customer service (e-mail: hurt@innpro.pl, website: <https://innpro.pl/>) or another specialist.
