

User Manual

Freewell Black Glow Mist Filter for Osmo Pocket 4P 1/8

Description

The Freewell Black Glow Mist 1/8 filter for DJI Osmo Pocket 4P allows you to give your footage a professional, cinematic character without losing natural image detail. It gently diffuses light, creating a subtle glow around bright elements of the frame, while maintaining sharpness and clarity of details. Thanks to the Black Glow Mist 1/8 effect, shots gain a softer, more elegant look straight from the camera, which reduces the need for later post-processing.

Intended Use

For safety and certification reasons, the product must not be modified or altered in any way. Using the product for purposes other than those described may result in damage to the product. Improper use may also cause hazards. Read the user manual carefully and keep it for future reference. Always read and follow the safety instructions contained in this manual.

1. The product is not a toy. Keep it out of reach of children and animals.
2. Protect the product from extreme temperatures, direct sunlight, strong vibrations, high humidity, moisture, flammable gases, vapours and solvents.
3. Do not subject the product to mechanical stress.
4. If safe operation is no longer possible (the product is damaged or does not work properly), stop using it and secure it against unintended use.
5. Handle the product with care. Shocks, impacts or dropping the product may cause damage.
6. If in doubt about the operation or safety of the product, consult a qualified specialist.
7. If you have any questions that are not answered in this manual, please contact our customer service (e-mail: hurt@innpro.pl, website: <https://innpro.pl/>) or another specialist.
