

User Manual

Freewell ND Filter for Osmo Pocket 4P ND64

Description

The Freewell ND64 filter for DJI Osmo Pocket is an excellent choice for filming in very bright lighting conditions. It reduces the amount of light reaching the lens by up to 6 f-stops, making it easier to maintain appropriate exposure settings even when recording in bright sunlight. It also allows for more natural, smooth motion blur without overexposure or loss of image quality, which translates into a professional look for recordings.

Intended Use

For safety and certification reasons, the product must not be modified or altered in any way. Using the product for purposes other than those described may result in damage to the product. Improper use may also cause hazards. Read the user manual carefully and keep it for future reference. Always read and follow the safety instructions contained in this manual.

1. The product is not a toy. Keep it out of reach of children and animals.
2. Protect the product from extreme temperatures, direct sunlight, strong vibrations, high humidity, moisture, flammable gases, vapours and solvents.
3. Do not subject the product to mechanical stress.
4. If safe operation is no longer possible (the product is damaged or does not work properly), stop using it and secure it against unintended use.
5. Handle the product with care. Shocks, impacts or dropping the product may cause damage.
6. If in doubt about the operation or safety of the product, consult a qualified specialist.
7. If you have any questions that are not answered in this manual, please contact our customer service (e-mail: hurt@innpro.pl, website: <https://innpro.pl/>) or another specialist.
