Machine translation from Polski. In case of doubt the manufacturer's original document prevails.

User Manual

Freewell ND/PL Filter for Insta360 Luna Ultra ND64/PL

Description

The Freewell ND64/PL filter for the Insta360 Luna Ultra camera is designed for recording in very bright lighting conditions. It combines a neutral density ND64 filter with a CPL polarizing filter, providing a light reduction of 6 stops and effectively limiting reflections and glare. This combination facilitates maintaining proper exposure even when working in intense sunlight while minimizing the risk of unwanted polarization effects that could disrupt the image structure.

Intended Use

For safety and certification reasons, the product must not be modified or altered in any way. Using the product for purposes other than those described may result in damage to the product. Additionally, improper use may pose hazards. Please read the user manual carefully and keep it for future reference. It is important to read and follow the safety instructions contained in the manual.

1. The product is not a toy. Keep it out of reach of children and pets.
2. Protect the product from extreme temperatures, direct sunlight, strong vibrations, high humidity, moisture, flammable gases, vapors, and solvents.
3. Do not expose the product to mechanical loads.
4. If safe operation is no longer possible (the product is damaged, not functioning properly), discontinue use and secure the product against further use.
5. Handle the product with care. Shocks, impacts, or dropping the product may cause damage.
6. If there are any doubts regarding operation or safety, consult a qualified professional.
7. If you have any questions not answered in this manual, please contact our customer service office (email: hurt@innpro.pl, website: <https://innpro.pl/>) or another specialist.
