User manual

Set of 4 ND8,16,32,64 Freewell filters for DJI Avata 2

Description

The set includes 4 ND filters specifically designed for DJI Avata 2 drones. The package is suitable for producing high-quality materials both on cloudy and sunny days. It includes ND8, ND16, ND32, and ND64. Each of them allows you to reduce the amount of light entering the sensor while maintaining the neutral color balance of the photos taken. The product features a sturdy construction, is exceptionally lightweight, and does not disrupt the drone's balance, allowing you to use them without worrying about your device.

Intended use

For safety and certification reasons, the device must not be modified or altered in any way. Using the product for purposes other than those described may result in damage to the product. Additionally, improper use may pose hazards. Please read the user manual carefully and keep it for future reference. It is essential to read and follow the safety instructions contained in the manual.

1. The product is not a toy. Keep it out of reach of children and pets.
2. Protect the product from extreme temperatures, direct sunlight, strong vibrations, high humidity, moisture, flammable gases, fumes, and solvents.
3. Do not expose the product to mechanical stress.
4. If safe operation is no longer possible (the product is damaged, not functioning correctly), discontinue use and secure the product against further use.
5. Handle the product with care. Shocks, impacts, or dropping the product may cause damage.
6. If there are any doubts regarding operation or safety, consult a qualified professional.
7. If you have any questions not answered in this manual, please contact our customer service office (email: hurt@innpro.pl, website: <https://innpro.pl/>) or another specialist.
