User Manual

Freewell Polarizing Filter for DJI Avata 2

Description

The Freewell polarizing filter has been specially designed for the DJI Avata 2 drone. It allows for the reduction of unwanted light reflections from water or other surfaces, enabling more natural colors, deeper contrast, and clearer details. It is made from high-quality optical glass that is resistant to scratches and dust. Thanks to the use of a lightweight aluminum alloy, the filter weighs only 0.5 g—so you don't have to worry about it disrupting the drone's operation.

Intended Use

For safety and certification reasons, the device must not be modified or altered in any way. Using the product for purposes other than those described may result in damage to the product. Furthermore, improper use may pose hazards. Please read the user manual carefully and keep it for future reference.

Safety Usage Tips

Please read and follow the safety instructions contained in the manual.

1. The product is not a toy. Keep it out of reach of children and pets.
2. Protect the product from extreme temperatures, direct sunlight, strong vibrations, high humidity, moisture, flammable gases, vapors, and solvents.
3. Do not expose the product to mechanical loads.
4. If safe operation is no longer possible (the product is damaged, not functioning properly), discontinue use and secure the product against further use.
5. Handle the product with care. Shocks, impacts, or dropping the product may cause damage.
6. If there are any doubts regarding the operation, safety, or connection of the product, consult a qualified professional.
7. If you have any questions that are not answered in this manual, please contact our customer service office (email: hurt@innpro.pl, website: <https://innpro.pl/>) or another specialist.
