Machine translation from Polski. In case of doubt the manufacturer's original document prevails.

User Manual

ND8/16/32 Freewell Filters for DJI Neo

Description

ND8/16/32 Freewell Filters for DJI Neo are the perfect solution for anyone looking to achieve professional video quality even in bright conditions. With high-quality optics, these filters reduce glare, provide accurate colors, and allow for shutter speed control, resulting in cinematic shots. Weighing only 1.1g, the filters do not affect the balance or aerodynamics of the drone, enabling smooth flights. Installation is simple — just remove the protective layer from the magnetic ring, fit it to the lens, and attach the filter, which can be easily swapped without removing the ring.

Intended Use

For safety and certification reasons, the device must not be modified or altered in any way. Using the product for purposes other than those described may damage the product. Furthermore, improper use may pose hazards. Please read the user manual carefully and keep it for future reference. It is essential to read and follow the safety instructions contained in the manual.

1. The product is not a toy. Keep it out of reach of children and pets.
2. Protect the product from extreme temperatures, direct sunlight, strong vibrations, high humidity, moisture, flammable gases, fumes, and solvents.
3. Do not expose the product to mechanical stress.
4. If safe operation is no longer possible (the product is damaged, not functioning correctly), discontinue use and secure the product to prevent further use.
5. Handle the product with care. Shocks, impacts, or dropping the product may cause damage.
6. If there are any doubts regarding operation or safety, consult a qualified professional.
7. If you have any questions not answered in this manual, please contact our customer service office (email: hurt@innpro.pl, website: <https://innpro.pl/>) or another specialist.
