ND/PL Filters 8/16/32 Freewell for DJI Neo

Description

ND/PL Filters 8/16/32 Freewell for DJI Neo are the perfect solution for drone pilots who want to capture crystal-clear shots in bright light. The set combines the advantages of neutral and polarizing filters, minimizing reflections from surfaces such as water or glass while enhancing color contrast. The ND8/PL, ND16/PL, and ND32/PL filters reduce the amount of light by 3, 4, and 5 stops respectively, preventing overexposure and improving color saturation. Weighing only 1.3g, these filters are lightweight and do not disrupt the drone's balance, and their installation is quick and easy thanks to the magnetic ring.

Intended Use

For safety and certification reasons, the device must not be modified or altered in any way. Using the product for purposes other than those described may result in damage to the product. Furthermore, improper use may pose hazards. Please read the user manual carefully and keep it for future reference.
