User Manual

Set of 4 ND/PL Filters Freewell for DJI Osmo Action 5 Pro

Description

Freewell filters are the perfect solution for owners of DJI Osmo Action 5 cameras who want to achieve excellent photos and videos in various lighting conditions. The set includes four filters: ND8/PL, ND16/PL, ND32/PL, and ND64/PL, which provide outstanding image quality even in bright sunlight. ND/PL filters combine the functions of ND (neutral) and PL (polarizing) filters. ND filters allow you to control the amount of light reaching the camera sensor, while PL filters eliminate glare and enhance color saturation. By combining these functions, Freewell filters ensure excellent image quality and interesting effects in any lighting conditions.

Intended Use

For safety and certification reasons, the device must not be modified or altered in any way. Using the product for purposes other than those described may result in damage to the product. Additionally, improper use may pose hazards. Please read the user manual carefully and keep it for future reference.

Safety Usage Guidelines

You must read and follow the safety guidelines contained in the manual.

1. The product is not a toy. Keep it out of reach of children and pets.
2. Protect the product from extreme temperatures, direct sunlight, strong vibrations, high humidity, moisture, flammable gases, vapors, and solvents.
3. Do not expose the product to mechanical loads.
4. If safe operation is no longer possible (the product is damaged, not functioning properly), stop using it and secure the product against further use.
5. Handle the product with care. Shocks, impacts, or dropping the product may cause damage.
6. If there are any doubts regarding the operation, safety, or connection of the product,

consult a qualified professional.

7. If you have any questions that are not answered in this manual, please contact our customer service office (email: hurt@innpro.pl, website: <https://innpro.pl/>) or another specialist.
