GARRETT Digging Trowel

Description

Searching with a metal detector requires equipment that can keep up with you in any conditions, which is why the GARRETT digging trowel is here to help. Its solid carbon steel construction, serrated edge for cutting roots, and ergonomic handle with a non-slip coating create a tool you can rely on in the field. The thoughtful shape and compact dimensions make it ideal for both precise digging and quicker retrieval of finds. The set also includes a practical belt holster, ensuring you always have it at hand. It is an essential piece of equipment for every exploration enthusiast.

Intended Use

For safety and certification reasons, the product must not be modified or altered in any way. Using the product for purposes other than those described may result in damage. Furthermore, improper use may pose hazards. Please read the user manual carefully and keep it for future reference. It is important to read and follow the safety instructions contained in the manual.
