User Manual

IMOU SG108C 8-Port LAN Switch

Description

The IMOU SG108C LAN switch offers 8 RJ45 ports, providing fast and stable network connectivity. It supports automatic speed negotiation in the range of 10/100/1000 Mbps, and the Auto MDI/MDIX feature eliminates the need for crossover cables. Additionally, the 802.3X Flow Control protocol ensures efficient data flow control. The device can be mounted quickly and easily, and the Plug & Play feature enhances user convenience.

Intended Use

For safety and certification reasons, the device must not be modified or altered in any way. Using the product for purposes other than those described may result in damage to the product. Furthermore, improper use may pose hazards. Please read the user manual carefully and keep it for future reference. It is important to read and follow the safety instructions contained in the manual.

1. The product is not a toy. Keep it out of reach of children and pets.
2. Protect the product from extreme temperatures, direct sunlight, strong vibrations, high humidity, moisture, flammable gases, fumes, and solvents.
3. Do not expose the product to mechanical loads.
4. If safe operation is no longer possible (the product is damaged, not functioning properly), discontinue use and secure the product against further use.
5. Handle the product with care. Shocks, impacts, or dropping the product may cause damage.
6. If there are any doubts regarding operation or safety, consult a qualified professional.
7. If you have any questions that are not answered in this manual, please contact our customer service office (email: hurt@innpro.pl, website: <https://innpro.pl/>) or another specialist.

Specification

Network port: 8 ports 10/100/1000 Mb/s

PoE support: No

Operating temperature: 0-40°C

Operating humidity: 10 to 90%

Power consumption: 3W

LED indicator: 1x power, 8x Link/Ack

Category: Unmanaged switch

Switching capacity: 16 Gbps

Packet forwarding rate: 1.488Mpps*8

Packet buffer memory: 4Mb

Jumbo frame: 15K

MAC table size: 8K

Surge protection: Common mode: 2 KV; Differential mode: 1 KV

Power supply: DC5V1A

Housing material: Plastic

Installation method: Desktop/wall mount

Dimensions: 133.2 x 62 x 21 mm

Weight: 79 g

Environmental Protection

Waste electrical and electronic equipment marked in accordance with the European Union directive must not be placed together with other municipal waste. It is subject to selective collection and recycling at designated points. By ensuring its proper disposal, you prevent potential negative consequences for the natural environment and human health. The system for collecting waste equipment complies with locally applicable environmental protection regulations regarding waste disposal. Detailed information on this can be obtained from the municipal office, waste management facility, or the store where the product was purchased. The product meets the requirements of the so-called New Approach directives of the European Union (EU) concerning safety, health protection, and environmental protection, which define hazards that should be detected and eliminated.
