2

Press and hold the controller switch button for 5 seconds.

Cannot be cut or extended

Do not bend or excessively flex the light strips

Safety instructions and information

1. Unroll the neon light strip before use.

2. Ensure proper connection to the app before installation.

3. This neon light strip cannot be connected in series with other neon light strips.

4. The fixtures are not suitable for direct mounting on normally flammable surfaces.

5. The fixtures are not suitable for covering with thermal insulation materials.

6. Do not cover the controller with metal objects.

7. The controller has a built-in microphone; for better results, place the music player near the controller.

8. The light source in this fixture is not replaceable; when the light source reaches the end of its lifespan, the entire fixture must be replaced.

9. In case of breakage or damage to the lamps, do not use the chain or connect it to power; dispose of it safely.

10. For indoor use only.

11. This light source is intended solely for applications requiring high-quality colored light. Using this light source will result in increased energy costs compared to an equivalent, more energy-efficient product.

12. Light sources with color adjustment with a minimum excitation purity of:

Blue	440nm — 490nm	90%
Green	520nm — 570nm	65%
Red	610nm — 670nm	95%

13. This product is subject to the provisions of European Directive 2012/19/EU. The symbol of a crossed-out wheeled bin indicates that the product requires selective waste collection in the European Union. This applies to both the product itself and all accessories marked with this symbol. Products marked with this symbol must not be disposed of with regular municipal waste but must be taken to a collection point for recycling electrical and electronic equipment. This recycling symbol indicates, for example, an item or parts of material as valuable for recycling. Recycling helps reduce the consumption of raw materials and protect the environment.

14. Do not stick the neon light strip to knits / wool fabrics / dusty walls / rough plastic surfaces / white painted walls.

15. Supports dimming only via the app.

Maximum transmission power	15 dBm
Antenna type	PCB Antenna

SIMPLIFIED EU DECLARATION OF CONFORMITY

LE Innovation Limited hereby declares that the type of radio equipment (LEPRO LED Strip N1-10 EU 10m Wi-Fi) is in compliance with Directive 2014/53/EU. The full text of the EU declaration of conformity is available at the following website:
<https://files.innpro.pl/lepro>
Manufacturer's address: One Spencer Dock, North Wall Quay, Dublin 1, D01 X9R7, Ireland

Environmental protection

Waste electrical and electronic equipment marked in accordance with the European Union directive must not be placed together with other municipal waste. It is subject to selective collection and recycling at designated points. By ensuring its proper disposal, you prevent potential negative consequences for the environment and human health. The system for collecting waste equipment complies with locally applicable environmental regulations regarding waste disposal. Detailed information on this can be obtained from the municipal office, cleaning facility, or the store where the product was purchased. The product meets the requirements of the so-called New Approach directives of the European Union (EU) concerning safety, health protection, and environmental protection, identifying hazards that should be detected and eliminated.

This document is a translation of the original user manual created by the manufacturer.
