1. Before use, carefully read the safety instructions and strictly follow the guidelines below; otherwise, serious accidents or injuries may occur.
2. The desk lamp should be used indoors at normal room temperature. The maximum ambient temperature should not exceed 40 °C!
3. Do not use cleaning agents with acidic or corrosive properties to clean the surface of the desk lamp!
4. Please do not cover the desk lamp with fabric or paper!
5. Please do not insert metal or flammable objects between parts!
6. Please do not use in areas accessible to children!
7. Please do not disassemble, repair, or modify the desk lamp!
8. Please do not use if the cable is damaged (exposed or broken wires)!
9. Do not modify, excessively bend, pull, twist, tie, or damage the cable!
10. Do not clamp the cable or place heavy objects on it!
11. Do not use in damp places or areas with high humidity, such as bathrooms!
12. To avoid eye injury, do not look directly at the light source for extended periods.
13. Use only the included power supply. Use the voltage indicated on the packaging.
14. The product contains replaceable light sources and separate control devices. If replacement is necessary, use products of the same brand and model.

15. This is a product containing one light source.

16. The product contains a light source of energy efficiency class <F>.

17. FOR INDOOR USE ONLY.

Environmental Protection

Used electronic equipment marked according to the European Union directive must not be placed together with other municipal waste. It is subject to selective collection and recycling at designated points. By ensuring its proper disposal, you prevent potential negative consequences for the natural environment and human health. The system for collecting used equipment complies with locally applicable environmental regulations regarding waste disposal. Detailed information on this can be obtained from the municipal office, waste management facility, or the store where the product was purchased.

The product meets the requirements of the so-called New Approach directives of the European Union (EU) regarding safety, health protection, and environmental protection, which identify hazards that should be detected and eliminated.

This document is a translation of the original user manual created by the manufacturer.

a

Detailed information about the distributor/manufacturer warranty conditions is available on the website <https://serwis.innpro.pl/gwarancja>

The product should be regularly maintained (cleaned) by the user or through specialized service points at the user's cost and responsibility. In the absence of information about necessary periodic or service maintenance actions in the user manual, the user should regularly, at least once a week, assess the physical condition of the product against that of a physically new product. If any deviation is detected or identified, urgent maintenance (cleaning) or service steps should be taken. Failure to properly maintain (clean) and respond upon detecting a deviation may lead to permanent damage to the product. The warranty provider is not responsible for damages resulting from neglect.
