1. Before installation, ensure that the lamp is turned off.
2. Designed for dry indoor use only, not suitable for outdoor use or in damp environments; the maximum ambient temperature during operation must not exceed 40 °C.
3. Do not clean the product with alcohol. This may negatively affect light performance.
4. After use, turn off the device to save electricity and extend the lamp's lifespan.
5. For your safety, use adapters that have safety certifications such as CE/PSE/UL/ETL, and ensure that the voltage and current are correct.
6. Do not disassemble, repair, or modify the lamp.
7. This product is not a toy. Keep away from children.
8. The fixture is not suitable for mounting on tubular materials.
9. In case of breakage or damage to the lamp, the chain must not be used or connected to power, but should be disposed of safely.
10. Do not look directly at the operating light source.
11. The light source of this fixture is not replaceable; when the light source reaches the end of its lifespan, the entire fixture must be replaced.
12. FOR INDOOR USE ONLY.

Environmental Protection

Waste electrical and electronic equipment marked according to the European Union directive must not be placed together with other municipal waste. It is subject to selective collection and recycling at designated points. By ensuring its proper disposal, you prevent potential negative consequences for the natural environment and human health. The waste collection system complies with locally applicable environmental regulations regarding waste disposal. Detailed information on this can be obtained from the municipal office, waste management facility, or the store where the product was purchased.

The product meets the requirements of the so-called New Approach directives of the

European Union (EU) concerning safety, health protection, and environmental protection, identifying hazards that should be detected and eliminated.

This document is a translation of the original user manual created by the manufacturer.

a

Detailed information about the distributor/manufacturer warranty conditions is available on the website <https://serwis.innpro.pl/gwarancja>

The product should be regularly maintained (cleaned) by the user or by specialized service points at the user's cost and responsibility. If there is no information about necessary periodic or service maintenance actions in the user manual, the user should regularly, at least once a week, assess the physical condition of the product against that of a physically new product. If any deviation is detected or noted, urgent maintenance (cleaning) or service steps should be taken. Failure to perform proper maintenance (cleaning) and respond when a deviation is detected may lead to permanent damage to the product. The warranty does not cover damages resulting from neglect.
