 - 15.

This product contains one light source. Service points at the user's cost and responsibility. In the absence of information about necessary maintenance or service actions in the user manual, the physical condition of the product should be assessed regularly, at least once a week, for any deviation from the condition of a physically new product. In case of detection or identification of any deviation, urgent maintenance (cleaning) or service steps should be taken. Failure to perform proper maintenance (cleaning) and to respond upon detection of a deviation may lead to permanent damage to the product. The warranty does not cover damages resulting from negligence.

This product is subject to the provisions of the European Directive 2012/19/EU. The crossed-out wheeled bin symbol indicates that the product requires separate waste collection in the European Union. This applies to the product and all accessories marked with this symbol. Products marked with this symbol must not be disposed of with regular household waste, but should be handed over to a collection point for electrical and electronic devices that handle recycling. This recycling symbol indicates, among other things, that the item or parts of the material are valuable for recycling.

Importer:

Recycling helps reduce the consumption of raw materials and protect the environment.
