Warning

- Adjust the headphones to a comfortable listening level. At full power, prolonged listening with headphones can result in damage to the user's hearing.
- Never wear these headphones while driving, as their audio isolation would prevent you from hearing the sounds in your environment.
- Do not disassemble the headphones. Doing so will void the guarantee.
- Protect the headphones from shocks and impacts.
- Ear pads may deteriorate with extended use or long storage.

Note

- Please retain this information. Colors and decorations may vary.
- This product contains small parts that could potentially be swallowed. We recommend that you remove the plastic fasteners and adhesive items before using the product.
- This product must not be used by a child under 12 years of age without an adult's supervision.

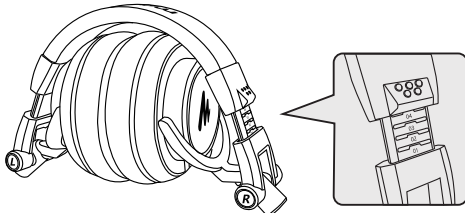

50mm drivers with high isolation earmuffs

AU-MH601 has a 50mm large built-in driver. It not only allows the headphones to reproduce the nuance of the original sound but also enrich the low frequency part, so that the users will never miss any detail of the sound. It is equipped with soft earmuffs, effectively enabling noise isolation from the surrounding and bringing premium listening experience to the users.

Adjustable and foldable headband

Users can easily adjust the length of the headband and make it a customized size for themselves. It can be adjusted horizontally 90 degrees and vertically 180 degrees. Besides, its headband could be folded to a smaller size thus portable for outing.

Double audio plugs

Double audio jacks

Warnings and safety information

All information concerning the use of the products, can be found in the enclosed instruction manual. Before using the product, read its contents and follow the manufacturer's recommendations.

Also read the following information before use:

Warnings for use

Risk of damage to the device:

- Only use the headphones for their intended purpose - for voice communication, game audio or other multimedia activities.
- Avoid contact of the headphones with water, moisture or other liquids to prevent damage. If flooded, unplug the device from the power source and dry it according to the manufacturer's recommendations.
- Do not pull on the cable for wired models to avoid damage.

User hazard:

- Use headphones at moderate volume to protect hearing. Prolonged use at high sound levels can lead to hearing damage.
- Do not use headphones while driving or in situations requiring your full attention to avoid accidents.
- For wireless models, make sure the batteries are in good working order and do not overheat when charging.

Power and connection risks:

- For wired headphones, make sure the cable is properly connected to your computer, console or other audio device.
- Wireless headphones should only be charged using the chargers and cables supplied by the manufacturer. Do not use damaged cables or adapters.

Information on correct use

Preparation and set-up:

- Before using the wireless headphones for the first time, make sure they are charged according to the user manual.
- Configure the sound settings in the manufacturer's software if the device is equipped with additional features such as noise reduction, 7.1 surround sound or microphone settings.
- Place the headphones in the correct position on your head, adjusting the headband and ear cups to ensure comfort.

Safe use:

- Take breaks during prolonged use to avoid ear fatigue or excessive pressure on your head.
- For headphones with a microphone, make sure the microphone is correctly positioned at the correct distance from your mouth for clear sound.
- Avoid using the headphones in very high or low temperatures, which may affect their durability.

Maintenance:

- Clean the earcups and headband regularly with a soft, dry or slightly damp cloth. Do not use harsh chemicals that may damage the materials.
- For wired headphones, avoid tangling the cable and store them in a dedicated case or stand.

Additional precautions

- Storage: Store your headphones in a dry, dust-free place. For wireless models, make sure they are fully charged before prolonged storage.
- Cable and connector protection: Regularly check the cables on wired models to ensure they are not damaged. Replace the headphones with new ones if you notice a broken or cut cable.
- Software updates: For wireless models, update the software regularly to ensure the best sound quality and connection stability.

Compliance statement

The gaming headphones have been designed in accordance with the safety requirements of Regulation (EU) 2023/988. They meet the requirements for electromagnetic compatibility (EMC), durability and safety of use.
