Step for Neakasa M1 Litter Box (White)

User Manual

Description

The step for the Neakasa M1 litter box helps to reduce the spread of litter around the house and increases the comfort of using the litter box. The special grid with slots approximately 4.8 mm wide and the angled deflector effectively captures litter that remains on the cat's paws, while the large surface area of 50.8 × 40.6 cm ensures easy and comfortable access. Made from durable ABS plastic, the step is easy to clean, features a practical opening for dumping collected litter, and can be assembled in just three simple steps.

Intended Use
