Neakasa AirStep Litter Box Mat with Odor Absorber

User Manual

Description

Neakasa AirStep is an innovative 2-in-1 litter box mat that simultaneously reduces litter tracking and effectively eliminates unpleasant odors. With an efficient activated carbon filtration system, it removes up to 99% of selected compounds responsible for stale air, and a CADR performance of up to 216 m³/h allows refreshing a room of up to approximately 45 m² in just 30 minutes. The extended grate captures litter remaining on the cat's paws, directing it to the built-in tray, and three operating modes allow you to adjust the operation to current needs. The entire unit operates quietly, achieving a noise level of even 40 dB, and is compatible with most litter boxes available on the market.

Intended Use

For safety and certification reasons, the product must not be modified or altered in any way. Using the product for purposes other than those described may result in damage to the product. Additionally, improper use may pose hazards. Please read the user manual carefully and keep it for future reference. It is important to read and follow the safety instructions contained in the manual.

1. The product is not a toy. Keep it out of reach of children and pets.
2. Protect the product from extreme temperatures, direct sunlight, strong vibrations, high humidity, moisture, flammable gases, vapors, and solvents.
3. Do not expose the product to mechanical loads.
4. If safe operation is no longer possible (the product is damaged, not functioning properly), discontinue use and secure the product against reuse.
5. Handle the product with care. Shocks, impacts, or dropping the product may cause damage.
6. If there are any doubts regarding operation or safety, consult a qualified professional.
7. If you have any questions that are not answered in this manual, please contact our

customer service office (email: hurt@innpro.pl, website: <https://innpro.pl/>) or another specialist.

Specifications:

Manufacturer: Neakasa

Model: AirStep

CADR performance level 1: 127 m³/h

CADR performance level 2: 160 m³/h

CADR performance level 3: 216 m³/h
