Selfie Ring Light with Clip

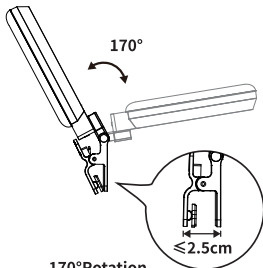

Secure the light by inserting it into the top of the clip, then clip it on devices to use as video light. Finally adjust ring light freely to find best angle.

Note: Arrange the charging cable with the cable organizer.

*Place the side with a hole in front of the camera to avoid obstructing the lens

360°Rotation

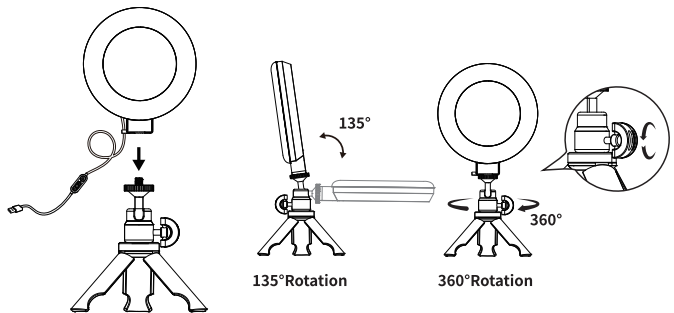

170°Rotation

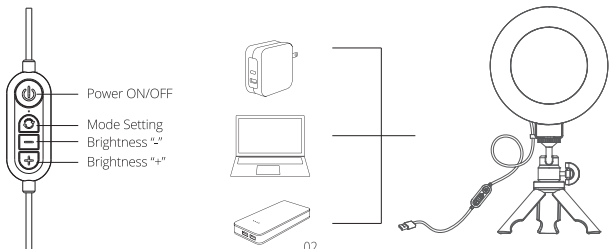

Selfie Ring Light with Mini Tripod

Mount the ring light on the tripod, then loosen the knob to adjust the ring light angle, and finally tighten the knob to fasten light.

Note: Need to put mini tripod on flat surface.

Selfie Ring Light Adjustment

Power ON/OFF

Connect USB power port (Input 5V /2A) with charging adapter, power bank or other USB charging port. Blue LED indicator will be light up.

Then press ON/OFF button to turn the ring light on or OFF.

Light Mode Setting

When light is on, press the mode setting button repeatedly to cycle through

It can cycle between warm light, mixed warm light, mixed light, mixed cold light, and cold white light modes.

Light Brightness Adjustment

When light is on, repeatedly press “+” or “-” button to adjust light brightness by step (10%~ 100%). Or press and hold “+” or “-” button to steplessly adjust the light brightness.
