Adapter OBSBOT UVC to HDMI

User Manual

Description:

The OBSBOT UVC to HDMI adapter is the perfect solution for those who want to easily and quickly connect OBSBOT cameras to devices with HDMI input, such as televisions or projectors. Thanks to the unique UVC to HDMI conversion technology in 4K quality, the adapter provides excellent image quality, making it a great choice for live streaming, video conferencing, or recording video materials. Additionally, the plug and play installation allows for quick startup without the need to install additional software, and low latency ensures smooth image transmission.

Specification:

Manufacturer: OBSBOT

Model: OHB-2110-CA

Color: Black

Dimensions: 90.5 x 55.5 x 27.2 mm

Weight: 100.5 g

Power Supply: USB-C 2.0, 9V/2A or 5V/3A (depending on the adapter), support for PD 3.0

HDMI Output Resolution: Up to 4K@30fps / 1080p@60fps

Compatibility: Camera with UVC1.1 / UVC1.5 protocol

Control: USB-A 2.0, 5V/0.5A

Data: USB-C 2.0, 5V/2A

Input Resolution: H264: 3840x2160@[30], 1920x1080@[60 50 30 25 24], 1280x720@[60 50], MJPEG: 1920x1080@[60 50 30 25 24], 1280x720@[60 50]

Output Resolution: 3840x2160@[30], 1920x1080@[60 50 30 25 24], 1280x720@[60 50]

Decoding Formats: MJPEG / H264

Operating Temperature: 0°C ~ 55°C

Operating Humidity: 0°C ~ 40°C

Output: HDMI 1.4

Safety Instructions for Adapters, Converters, and Converters:

Carefully read the device's user manual. Follow all usage instructions contained in the User Manual. Ensure that all instructions have been thoroughly read and understood before using the product.

1. Safe Usage Warnings:

- Adapters, converters, and converters should only be used for their intended purpose. Improper use may lead to the risk of fire, electric shock, bodily injury, or damage to devices.
- Before connecting the adapter, ensure that the voltage and current of the power supply are compatible with the requirements of the connected device.
- Do not use adapters or converters if they are damaged, cracked, melted, or show signs of overheating.
- Adapters and converters should only be used in well-ventilated areas, away from flammable materials.
- Never connect multiple adapters or converters in series, as this may overload the electrical installation.

2. Precautions and Usage Information:

- Before using the adapter, ensure that it is intended for use in the region where you are located, considering differences in voltage and types of sockets.
- Do not leave connected devices unattended, especially while charging.
- Do not use the adapter in humid conditions or in places where there is a risk of contact with water or other liquids.
- Keep away from children and pets — the product is not a toy and is not intended for use by children.
- Before cleaning or maintaining the adapter, always disconnect it from the power source. Do not use any liquids or chemicals for cleaning, only a dry, soft cloth.

3. Compliance and Quality Warnings:

The adapter, converter, or converter should have CE marking, confirming compliance with applicable EU safety and quality requirements.

Check that the product has the appropriate markings and information regarding its power, voltage, and manufacturer.

4. Contact for Questions or Issues:

If you have any questions regarding the use of the product or if any issues arise, please contact the manufacturer or authorized representative. If the product poses any danger or does not operate as described, immediately cease use and contact the appropriate service.

5. Storage and Maintenance:

- Adapters and converters should be stored in dry and cool places, avoiding exposure to high temperatures, excessive humidity, or other extreme conditions.
- Regularly check the condition of the cable and plugs. If any damage is found, cease use and replace with a new product.

6. Disposal Information:

- The product should be disposed of in accordance with applicable waste management regulations. Do not throw in municipal waste.
- Contact your local electronic waste collection point for safe disposal of the product.

7. Information on Compliance with Environmental Standards:

- Adapters and converters have been designed with the aim of reducing energy consumption and protecting the environment. It is important to follow the manufacturer's recommendations to minimize environmental impact during product use.
- The above information is intended to ensure the safety of users of adapters, converters, and converters, as well as to protect property and the natural environment in accordance with applicable regulations.

Declaration of Conformity

The product has been designed in accordance with the safety requirements specified in Regulation (EU) 2023/988 and meets the relevant technical standards, including those concerning electromagnetic compatibility (EMC) and electrical safety.

Environmental Protection

Used electronic equipment marked in accordance with the European Union directive must not be disposed of together with other municipal waste. It is subject to selective collection and recycling at designated points. By ensuring its proper disposal, you prevent potential negative consequences for the natural environment and human health. The system for collecting used equipment complies with locally applicable environmental protection regulations regarding waste disposal. Detailed information on this can be obtained from the municipal office, waste management facility, or the store where the product was purchased.

The product meets the requirements of the so-called New Approach directives of the European Union (EU), concerning issues related to user safety, health protection, and environmental protection, which define hazards that should be detected and eliminated.
