User Manual

OBSBOT 360° Rotating Charging Base

Description

The OBSBOT 360° Rotating Charging Base is a practical accessory designed for the Obsbot Tail Air camera, allowing for free rotation of the camera, longer operation without connecting to power, and convenient mounting on a standard tripod with a 1/4" thread. The base is equipped with two interchangeable batteries with a capacity of 2500 mAh, which can extend the operating time of the set to up to 7 hours. The design supports USB PD3.0 and BC v1.2 power supply, which translates to efficient charging and convenient operation during studio recordings, live broadcasts, or mobile work. Its compact dimensions and low weight make it easy to take into the field without overburdening the equipment.

Intended Use

For safety and certification reasons, the product must not be modified or altered in any way. Using the product for purposes other than those described may result in damage to the product. Furthermore, improper use may pose hazards. Please read the user manual carefully and keep it for future reference. It is essential to read and follow the safety instructions contained in the manual.

1. The product is not a toy. Keep it out of reach of children and pets.
2. Protect the product from extreme temperatures, direct sunlight, strong vibrations, high humidity, moisture, flammable gases, vapors, and solvents.
3. Do not expose the product to mechanical loads.
4. If safe operation is no longer possible (the product is damaged, not functioning correctly), discontinue use and secure the product against reuse.
5. Handle the product with care. Shocks, impacts, or dropping the product may cause damage.
6. If there are any doubts regarding operation or safety, consult a qualified professional.
7. If you have any questions that are not answered in this manual, please contact our customer service office (email: hurt@innpro.pl, website: <https://innpro.pl/>) or another specialist.

Environmental Protection

Used electronic equipment marked in accordance with the European Union directive must not be disposed of with other municipal waste. It is subject to selective collection and recycling at designated points. By ensuring its proper disposal, you prevent potential negative consequences for the natural environment and human health. The system for collecting used equipment complies with locally applicable environmental protection regulations regarding waste disposal. Detailed information on this can be obtained from the municipal office, waste management facility, or the store where the product was purchased. The product meets the requirements of the so-called New Approach directives of the European Union (EU) concerning safety, health protection, and environmental protection, identifying hazards that should be detected and eliminated.

Battery Information:

Type: li-ion

Net Weight: 0.1 kg

Capacity: 2500 mAh

Exceeded permissible cadmium content (0.002%) or lead (0.004%): no

Battery identification number: 753957-2S1P
