User Manual

Ball Head for OBSBOT Tripod

Description

The ball head for OBSBOT tripod is a lightweight and durable accessory designed for conveniently positioning webcams, cameras, and other devices equipped with a standard 1/4" thread. The model made of aluminum allows for a full 360° rotation and tilt adjustment from -90° to 90°, making it easy to adjust the recording angle to your needs. Its small weight of only 56 g ensures that the head does not burden the workstation or mobile recording setup. This practical solution is suitable for both everyday video calls and creating video materials at home, in the office, or during trips.

Intended Use

For safety and certification reasons, the product must not be modified or altered in any way. Using the product for purposes other than those described may result in damage to the product. Additionally, improper use may pose hazards. Please read the user manual carefully and keep it for future reference. It is essential to read and follow the safety instructions contained in the manual.

1. The product is not a toy. Keep it out of reach of children and pets.
2. Protect the product from extreme temperatures, direct sunlight, strong vibrations, high humidity, moisture, flammable gases, vapors, and solvents.
3. Do not expose the product to mechanical loads.
4. If safe operation is no longer possible (the product is damaged, not functioning correctly), discontinue use and secure the product against further use.
5. Handle the product with care. Shocks, impacts, or dropping the product may cause damage.
6. If there are any doubts regarding operation or safety, consult a qualified professional.
7. If you have any questions that are not answered in this manual, please contact our customer service office (email: hurt@innpro.pl, website: <https://innpro.pl/>) or another specialist.
