OBSBOT Tail 2 ND Filter Set

Description

The OBSBOT Tail 2 ND filter set is a practical accessory designed for video creators who want to achieve a more professional image in various lighting conditions. The set includes ND8, ND16, ND32, and ND64 filters, as well as a balancing ring, allowing precise control over the amount of light entering the OBSBOT Tail 2 camera lens. The filters help maintain proper exposure when recording on sunny days and enable smooth motion effects and natural blur. The entire set is made from durable, scratch-resistant optical glass, ensuring long-lasting performance and stable image quality.

Intended Use

For safety and certification reasons, the product must not be modified or altered in any way. Using the product for purposes other than those described may result in damage to the product. Additionally, improper use may pose hazards. Please read the user manual carefully and keep it for future reference. It is essential to read and follow the safety instructions contained in the manual.

1. The product is not a toy. Keep it out of reach of children and pets.
