USB HUB HEADSET STAND

USB 集线器耳机支架

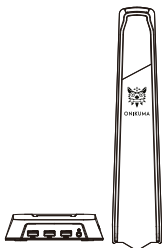

Product Appearance

1. The newly designed Headset holder adopts colorful RGB lighting effects and a stylish design style. The height of the holder has also been increased, making it easier to hang and display the headset. The skidproof bottom design can effectively prevent rollover or displacement.

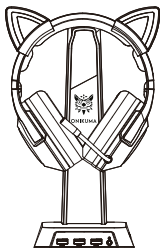

Assembly Instructions

Assembly parts

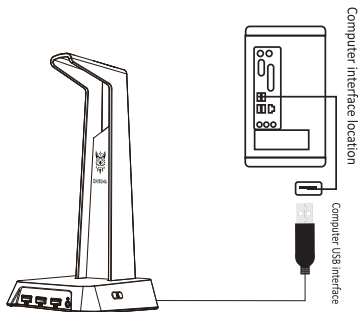

Align the gap and press down as shown.

Hanging headset

Press the bottom to complete the assembly

1. Connect the power, the button and body parts are glowing.
2. Three modes, (RGB mixed light-7 colors-turn off the light), press the button to switch, the default mode is RGB mixed light.
