Notes

- Before using The Product, please read all instructions and warnings carefully.
- For your safety and the safety of other road users, please comply with the traffic regulations of your country and do not watch videos while driving.
- Please operate The Product correctly according to the user manual.
- Any damage or risk caused by improper use shall be the user's responsibility. Thank you for your understanding.

※ The information in this manual is subject to change without notice.

Package Contents

Ottocast Mini Slim

User Manual

A to C Adapter

※ If the actual product does not match the package list, please refer to the actual product received.

Is this product compatible with my car?

The Product is only applicable to vehicles with original wired CarPlay or wired Android Auto.

■ How to check if your car has original wired CarPlay?

Use the original phone data cable to connect your iPhone to the car's USB port. If the CarPlay icon or related text prompt appears on the car's display, your car supports CarPlay and The Product can be used.

※ iPhone must run iOS 10 or later.

※ If you are still unsure whether your car supports wired CarPlay, please contact your car dealer for assistance.

■ How to check if your car has original wired Android Auto?

Use the original phone data cable to connect your Android phone to the car's USB port. If the Android Auto icon or related text prompt appears on the car's display, your car supports Android Auto and The Product can be used.

- ✕ The phone must run Android 11 or later.
- ✕ If you are still unsure whether your car supports wired Android Auto, please contact your car dealer for assistance.

Key Features

- Convert the original wired CarPlay to wireless CarPlay.

- **Convert the original wired Android Auto to wireless Android Auto.**

- **The Product can memorize 2 phones.**

- ※ **Automatically reconnect to the last used phone after startup.**

Hardware Interfaces

Firmware updating
- White solid: Firmware update completed
- ✦ Red blinking: Firmware update error

● Solid

✦ Blinking

✦ Color alternating

- ② Power Interface (supports 5V voltage) for power supply and data transmission
- ③ A to C adapter

How to install correctly?

Insert The Product into the USB port designated for wired Apple CarPlay/wired Android Auto in your vehicle (if there are multiple USB ports).

How to use wireless CarPlay/wireless Android Auto?

■ How to Connect the Phone?

1. Turn on the phone's Bluetooth and click the Bluetooth name of The Product.

2. After successful pairing, please agree to all requests from CarPlay/Android Auto.

※ The connection steps for Android Auto are the same as CarPlay.

3. Wireless CarPlay/Wireless Android Auto connection is successful.

※ **The product will automatically recognize iPhones or Android phones. When switching phones, the product will restart automatically.**

※ **Reconnection Mechanism:**

1. If the product has only been connected to one phone, it will automatically connect to that phone when its Bluetooth and Wi-Fi are enabled.
2. If the product has been connected to two phones, when both phones have Bluetooth and Wi-Fi enabled, it will prioritize connecting to the last successfully connected phone. If that phone cannot connect, it will connect to the other phone after 15-30 seconds.

■ How to Switch Phones?

1. Enter the control center of the currently connected phone and turn off Wi-Fi and Bluetooth.

❶ Turn off WLAN

❷ Turn off Bluetooth

2. After successfully disconnecting, turn on the Bluetooth of the other phone and click the Bluetooth name of this product to pair.

Instructions for Firmware Update and Issue Reporting (iPhone Users)

■ Firmware Update

1. Update when CarPlay is connected.

1.1 Open the phone browser and enter the URL:

<http://192.168.1.101>.

1.2 If an update is available, click "Update".

2. Update when CarPlay is not connected.

2.1 Connect your phone's Wi-Fi to the product [CAR2-XXXX].

2.2 Password: 88888888

2.3 Open the phone browser and enter the URL:
<http://192.168.1.101>.

2.4 If an update is available, click "Update".

※ **Do not power off during the update. After the update is completed (LED indicator turns white), please unplug the adapter. After the update, please re-pair your phone.**

■ Report Issues

Issues can be reported on the same update page
<http://192.168.1.101>.

1. Fill in the form and submit.

A screenshot of the report issue form. It consists of three rows, each with a label on the left and a text input field on the right. The first row is labeled "Car brands" and contains "Volkswagen". The second row is labeled "Car models" and contains "Passat". The third row is labeled "Car years" and contains "2023". Below the form is a black button with a white upward arrow icon and the word "Report" in white. A hand icon is pointing at the "Report" button. In the top right corner, there is a small circle with the number "1".

2. Take a screenshot of this page and send it to your seller.

Instructions for Firmware Update and Issue Reporting (Android Users)

■ Firmware Update

1. Connect The Product to a 5V car power supply (a portable power bank or power adapter can be used as an alternative to the car power supply).

※ When powered via your car's USB (Android Auto port): Unpair this product from your phone's Bluetooth and turn off Wi-Fi on your phone.

2. Find the WiFi Direct (or WLAN Direct) function on your Android phone.

(The path to access WiFi Direct varies by phone. For example, on Google Pixel 6 Pro: **Settings** → **Network & Internet** → **Network Preferences** → **WiFi Direct**)

3. Click [CAR2-XXXX] in the WiFi Direct list.

4. Wait for the connection to succeed before performing other operations.

5. Open the phone browser and enter the URL:
<http://192.168.1.101>.

6. If an update is available, click "Update".

- ✖ **Do not turn off the power during the update.**
- ✖ **After the update is completed (LED turns white), please unplug the adapter.**
- ✖ **After the update, please re-pair your phone.**
