User Manual

PETKIT Eversweet Filter 5pcs

Description

The filters are dedicated to Eversweet 1 / 2 / 3 fountains. The special 3-stage filtration ensures that your cats have access to impeccably clean and fresh water for a longer time. In the first stage, the filter with a special mesh effectively cleans the water from hair and other impurities. Next, the activated carbon filter removes unpleasant odors and enriches the water with flavor qualities. In the final stage, the ion-exchange resin reduces the level of heavy metals contained in the water. Replacing the filters will not cause you any problems. To ensure water cleanliness and maintain the device's efficiency, remember to frequently replace the filters in the drinking fountain.

Intended Use

For safety and certification reasons, the product must not be modified or altered in any way. Using the product for purposes other than those described may damage the product.
