User Manual

PULUZ Pocket LED Photography Light

Description

The PULUZ Pocket RGB LED 140 is a compact and versatile light source designed for photographers, videographers, streamers, and content creators. It features 140 LEDs (49 white, 49 warm, and 42 RGB), offering an adjustable color temperature range of 2500–9000 K and a color rendering index (CRI) of 95+. This ensures natural color reproduction and full control over the lighting character—from warm daylight to cool studio tones.

Intended Use

For safety and certification reasons, the product must not be modified or altered in any way. Using the product for purposes other than those described may result in damage. Additionally, improper use may pose hazards. Please read the user manual carefully and keep it for future reference.
