

User Manual

Puluz Insta360 X5 Waterproof Housing

Description

The PULUZ PU353 housing is specifically designed to protect the GoPro HERO8 Black camera during underwater activities. It ensures waterproof protection up to a depth of 60 meters, allowing recording in demanding aquatic environments. This specialized diving accessory protects the camera against water ingress and external pressure. The housing is an essential piece of equipment for GoPro HERO8 Black users planning underwater sessions.

Use strictly in accordance with the intended purpose

For safety and certification reasons, the product must not be modified or altered in any manner. Utilizing the product for purposes other than those specified may result in product damage. Moreover, use inconsistent with the intended purpose may create safety hazards. Carefully read the user manual and retain it for future reference. It is essential to read and comply with the safety instructions provided in the manual.

1. This product is not a toy. Keep this product out of the reach of children and pets.
2. Protect the product from extreme temperatures, direct sunlight, strong vibrations, elevated humidity, moisture, flammable gases, vapors, and solvents.
3. Do not subject the product to mechanical stress.
4. If safe operation is no longer possible (e.g., the product is damaged or malfunctioning), discontinue use immediately and ensure the product is secured to prevent further use.
5. Please handle the product with utmost care. Shocks, impacts, or accidental drops may result in product damage.
6. If there are any uncertainties concerning the operation or safety of the device, please consult a qualified professional.
7. Should you have any inquiries not addressed in this manual, please contact our Customer Service Department (email: hurt@innpro.pl, website: <https://innpro.pl> /) or consult a qualified specialist.
