User manual

Puluz Dual Channel USB Charger for Insta360 X3

Description

With the Puluz dual channel charger, your camera will always be ready for action! The charger provides space for simultaneous charging of 2 Insta360 X3 camera batteries. Each slot has an independent power source, ensuring safe and reliable charging, without worrying about overheating or overcharging. The built-in LED indicator will inform you about the charging status - a red light indicates the charging process, and when the battery is ready for use, the light changes to blue.

Intended use

Contact with moisture, e.g., in the bathroom, must be unconditionally avoided. For safety and certification reasons, the device must not be modified or altered in any way. Using the product for purposes other than those described may damage the product. Additionally, improper use may pose hazards. Read the user manual carefully and keep it for future reference.

Safety usage instructions

Read and follow the safety instructions contained in the manual.

1. The product is not a toy. Keep it out of reach of children and pets.
2. Protect the product from extreme temperatures, direct sunlight, strong vibrations, high humidity, moisture, flammable gases, vapors, and solvents.
3. Do not expose the product to mechanical loads.
4. If safe operation is no longer possible (the product is damaged, not functioning properly), stop using it and secure the product against reuse.
5. Handle the product with care. Shocks, impacts, or dropping the product may cause damage.
6. If there are any doubts regarding the operation, safety, or connection of the product, consult a qualified professional.
7. If you have any questions not answered in this manual, please contact our customer service office (email: hurt@innpro.pl, website: <https://innpro.pl/>) or another specialist.

Specification

Model: PU818

Charging interface: USB-C

Current: 5V/3A

Charging time: 90 minutes

Manufacturer: Shenzhen SUNSKY Technology Limited

Address: 8/F, No.614 Building, Bagua 1st Road, Futian District, Shenzhen

ENVIRONMENTAL PROTECTION

Waste electrical and electronic equipment marked in accordance with the European Union directive must not be placed together with other municipal waste. It is subject to separate collection and recycling at designated points. By ensuring its proper disposal, you prevent potential negative consequences for the natural environment and human health. The system for collecting waste equipment complies with locally applicable environmental protection regulations regarding waste disposal. Detailed information on this can be obtained from the municipal office, waste management facility, or the store where the product was purchased.

The product meets the requirements of the so-called New Approach directives of the European Union (EU) regarding issues related to safety of use, health protection, and environmental protection, defining hazards that should be detected and eliminated.
